D-U-N-S® Number

812649473

Granted to

**Ingeniería Mecánica de Puebla S.A. de
C.V.**

ISSUE DATE: 05/26/2026 | **EXPIRATION DATE:** 06/06/2027

The D-U-N-S® (Data Universal Numbering System) is a global identifier, which authenticates the existence of the company.

The fact that a company is registered in CIAL Dun & Bradstreet's database does not mean that a credit or any other transaction should be approved, rejected, limited or delayed; it means that there is sufficient information to assign a D-U-N-S® Number.

The D-U-N-S® Number is permanent in CIAL Dun & Bradstreet's database. However, the information contained in the report generated when granting this identifier, is valid for one year from the update date.
