

DOCUMENT CUSTODIAL SERVICES

Our Sophisticated Approach

Vervent responds to today's evolving technology landscape by providing a fully digital environment to store and protect critical documents throughout their entire lifecycle. We maintain the authenticity of original documents, the identity of the signatories and the integrity of the content to safeguard our client's documents and give them peace of mind knowing their files are protected.

Providing Complete Confidence with:

- State-of-the-art, cloud-based system to ensure security and data redundancy
- Seamless integration with client origination and servicing platforms to avoid workflow disruption
- Superior encryption and automation
- Secure, on-demand access to your documents
- Full transparency and a robust reporting platform
- Secure, fireproof, climate-controlled physical document storage
