

EQUIPMENT FINANCE SERVICING

Vervent delivers specialized primary servicing for equipment loan and lease portfolios with compliant workflows that protect collateral value and support scalable growth.

Complex Portfolio Management

Flexible infrastructure to support complex equipment portfolios, including:

- ✓ Construction and heavy machinery
- ✓ Transportation and fleet assets
- ✓ Healthcare and medical devices
- ✓ Industrial and IT equipment

Collateral Control & Asset Protection

Active asset controls strengthen collateral value and minimizes loss exposure.

- ✓ UCC filing and lien/title management
- ✓ Residual value monitoring and end-of-term/remarketing support
- ✓ Insurance claims and loss mitigation support
- ✓ Asset recovery coordination and exception management

Billing, Payments & Collections

Disciplined servicing drives cash flow consistency and payment reliability.

- ✓ Accurate billing and multi-channel payment processing
- ✓ Tax administration support
- ✓ Delinquency management and compliant collections
- ✓ Payoffs, renewals, and lease extensions

Compliance & Operational Oversight

Structured controls reduce regulatory risk and strengthen operational discipline.

- ✓ Truth-in-leasing and disclosure compliance support
- ✓ UCC documentation management + audit-ready controls
- ✓ Regulated communications, privacy, and QA controls

Performance Reporting & Transparency

Data-driven visibility enhances portfolio oversight and decision-making.

- ✓ Portfolio dashboards and asset status visibility
- ✓ Delinquency and aging analysis
- ✓ Recovery and loss tracking

Specialized servicing for complex equipment portfolios, backed by asset-level control and compliance discipline.
