

Landscape Project Planner

YOUR FIRST STEP TO A BEAUTIFUL AND
FUNCTIONAL OUTDOOR LIVING SPACE

FINELY CRAFTED, DESIGNED TO INSPIRE

GREAT LANDSCAPES BEGIN WITH GREAT PLANS.

This project planner helps us build a relationship of trust and sets your project up for success. Further, it allows you to explore ideas and prioritize wants and needs.

We start with a listening and exploration process, and then we apply our training, expertise and creativity to develop your dream landscape. Working with our design team, you will benefit from landscape plans that clearly communicate elements in your landscape and how they function together to fulfil your needs and maximize the potential of your property.

Why start with a landscape design?

1. Your plan takes your homes' site conditions into account and clearly shows all elements of your property
2. You will see how all the landscape elements come together to maximize the potential of your property
3. To help establish an accurate project budget
4. To help you work toward your final vision efficiently even if your project is constructed in phases

Next Steps

1. CONSULTATION

- Initial meeting and property evaluation
- Needs, wish-list and project scope discussion
- Discuss project budget (*typical budget \$50,000-\$100,000+*)
- Design deposit (depending on scale and scope)
- Deposit is 100% refundable on acceptance of Construction Proposal

2. CONCEPT DESIGN

- Site Measure, inventory and assessment by Landscape Design team
- Designer will create an initial concept plan for review
- Meeting with you to review your concept plan and show you our approach
- Review your wish-list and project budget

Where do we bring you value?

- Developed landscape practices designed to stand the test of time
