

Desk / Room / Pod Booking Software

Simplify reservations and empower employees with flexible, intuitive booking tools.

//01

Multi-Platform Access

Book hotdesks, meeting rooms, or smart pods via web app, admin dashboard portal, or scan QR code on-site.

//02

Smart Scheduling

Intelligent algorithms prevent double-bookings, suggest alternative spaces, and enable recurring reservations.

//03

Integrated Pods & Booths

Manage Smart Work Pods, soundproof booths, and hybrid meeting rooms alongside desks.

//04

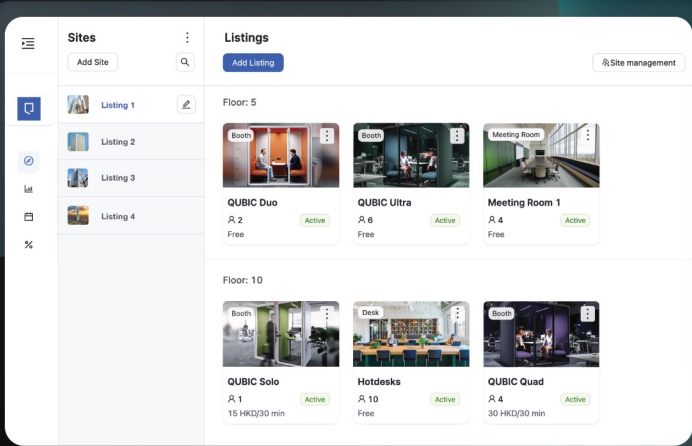

QR & Calendar Sync

One-tap check-in via QR codes, with direct sync to Outlook, Microsoft Teams, or Google Calendar.

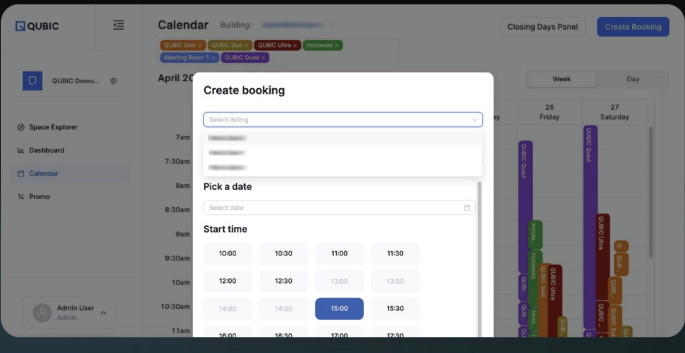

//05

No-Show Management

Automatic release of unused reservations after grace periods to maximize availability.

Provides a seamless employee experience, ensures fair access to shared resources, and supports hybrid work strategies by giving staff the flexibility to choose where and how they work.

The Desk / Room / Pod Booking Software simplifies booking and managing desks, rooms, and pods for both employees and admins. It ensures efficient, transparent use of spaces while reducing costs and improving the workplace experience.
