

Experts in mobile banking development

What we do

We provide **custom mobile app development** using ready to integrate components and tools developed for over more than a decade.

Dozens of tools and off-the-shelf libraries, as well as innovative products, allow banks to efficiently create and implement applications, while maintaining **maximum business value in a short time to market** and without draining the budget.

Our high-performing teams create **best-in-class mobile banking applications** widely appreciated by clients and industry rating companies.

If you need to:

build from scratch a
brand new mobile
banking app

or

revamp and maintain
an existing mobile
banking app

along with

improving the quality
of the app

shortening the time-to-market
to launch the final product

optimising
development costs

and...

if you expect your application to:

✓ attract new
customers

✓ increase customer
loyalty

✓ enhance customer
experience

✓ be enriched with
innovative, modern
functionalities

✓ boost transaction
numbers

✓ be stable and of
a high quality

✓ achieve high ratings
in app stores

✓ reduce TTM
of new features

✓ be released always
on time

We know how to do it well

Why Finanteq is the best possible choice

- Exclusive **focus on mobile banking**
- **Deep understanding** of the banking business and its nature
- **Experience** in the industry and rich know-how (both technical and banking)
- **Agile or hybrid** collaboration model: flexibility and adjustment to client's needs
- **Best quality every time**

What is outstanding about Finanteq

Outstanding Squads

- ✓ Technical excellence in all aspects of programming
- ✓ Dedicated, highly-performing, cross-skilled development squads of experienced professionals
- ✓ Extreme efficiency: delivering maximum business value in the shortest possible time

Distinctive Technology

- ✓ Native app development, which translates into reliable, high-quality, and best user experience applications for banking
- ✓ Full automated functional test coverage
- ✓ Short regression testing time: up to 20 minutes for an average application, drastically improving time-to-market and reducing costs

Optimized Processes

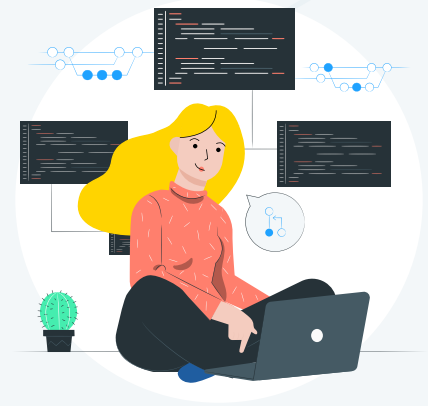

- ✓ Budget management with optimised processes
- ✓ Proven working methods
- ✓ Short communication loop
- ✓ Constant waste elimination
- ✓ Efficient use of human resources

Finanteq's development squads

We are not another outsourcing company.

We provide **highly-performing teams** with technical excellence that have been working exclusively in banking for years in stable squads. Equipped with the necessary technology stack, but also familiar with the banking industry, bank processes, and the dependencies between them.

Thanks to this Finanteq squads are ready to quickly start a new project or take over an ongoing project on the fly and complete it.

A new banking app project

- Immediate availability: no need to search, complete, onboard, and train.
- Readiness to immediately start a new project from scratch.
- Ability to prepare a complex mobile banking application project (including UX/UI design) based on client needs.
- Providing tailored SLA/maintenance support.

An ongoing mobile banking app project

- Ability to quickly review and evaluate the current banking application and take over the development or support an existing one, which includes:
 - ✓ fast project evaluation,
 - ✓ code usability assessment,
 - ✓ preparation of an evaluation report,
 - ✓ identification of opportunities for further development.
- Advising the bank on the best options for developing the application (we have necessary expertise to advise on which directions of development to choose).
- Readiness to start the work immediately thanks to the agile approach.
- Providing tailored SLA/maintenance support.

Our clients value our teams for:

Quality of delivered solutions

Flexible approach

Constant support

Consultancy

Effective communication

Finanteq on Clutch - Our clients' reviews

Working with an experienced fintech is a win-win situation

"The new version of our app is better; we haven't experienced any bugs."

– mBank, Poland

"The number of users who are using the app continues to grow – in fact, it has increased by 100% over the last year, from 30,000 to 60,000 users."

– mBank, Poland

"Their dedication and quality of services are impressive. They are attentive to details."

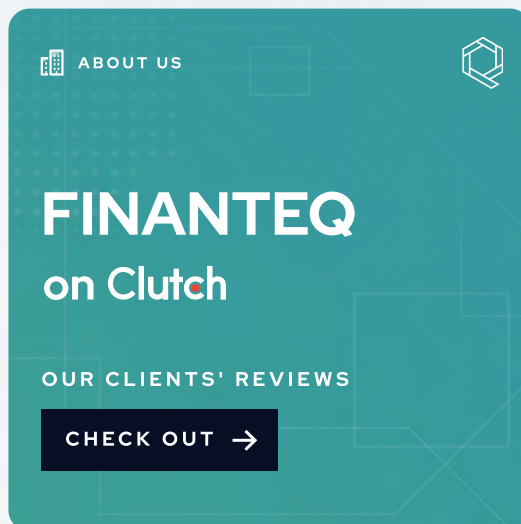

– National Bank of Kuwait, Kuwait

"The app stands out in the market and surely engages our customers. Average rating:

App store: 4,6

Google Play: 4,5."

– BNP Paribas Polska S.A., Poland

"We haven't had any production incidents or issues that could affect our customers."

– Banking Institution, Kuwait

"What do we find most impressive or unique about this company is their technical excellence and unbelievable passion, which is reflected in the quality of the app."

– mBank, Poland

"With Finanteq's support, we are able to deliver new versions of the application really fast and without any problems. Their turnaround time is excellent."

– mBank, Poland

About us

We are a successful technology company with extensive knowledge of digital banking solutions. Mobile banking development has been the core of our business for more than 15 years. Over that time, we have created many practices and principles, that we use in every project.

We are a trustworthy partner: our developers have run a multitude of mobile banking projects worldwide. We deliver digital solutions for both retail and corporate banks. We can also create a separate app for a specific segment of the bank's customers (e.g. VIP, youth).

Create your digital banking with us!
