

**YOUR SINGLE
SOURCE FOR
DOING MORE,
FASTER.**

ENGINEERED FOR IMPACT

From concept to commissioning - we deliver turnkey, custom-engineered solutions that elevate your operations.

Why It Matters

S&K Industrial is a full OEM and systems integrator providing advanced design and build services, including precision fixtures, automation systems, and full line integration. Whether you're upgrading a process or building from the ground up, our engineering team works with you to improve safety, boost efficiency, and drive long-term success.

Distributor. Integrator. Problem Solver.

Assembly Equipment

- Assembly Fixtures & QA Stations
- Assembly Process Station
- Weld Fixturing, Tooling & Assembly
- Custom Machinery & Tooling
- Ergonomic Workstations & Positioners
- Torque Tubes
- End of Arm Tooling (EOAT)

General Automation

- Poka-Yoke (Error Proofing Systems)
- End-of-Line Packaging & Testing Solutions
- Machine Safety & Assessments
- System Improvement & Modifications
- Retrofit & Re-tooling
- Machine Tending
- Automation Process Control
- Conveyance & Sorting Systems

Robotics

- Robotics Integration & Programming
- End of Arm Tooling (EOAT)
- Machine Tending
- Material Removal

Machine Vision / Industry 4.0

- AI & Vision Inspection Systems
- Part Presence Detection
- Traceability & Data Capture Systems
- Machine Analytics & Ignition Platforms
- Vision Inspection & Barcoding

Lifting Equipment

- Lifting Devices
- Torque Tubes
- Positioners

Data Analytics

- SCADA & Process Control Integration
- Traceability & Data Capture Systems (shared)
- Machine Analytics & Ignition Platforms (shared)
- Andon & Production Display Systems
- Production Display

Your Products. Your Process. Our Custom Engineering.

We don't just supply—we integrate. From modifying standard tools to delivering fully turnkey systems, every solution is custom-engineered to your process, facility, and goals. Our full line FAT capability ensures performance, precision, and confidence before it ever hits your floor.

INDUSTRIES WE SERVE

Automotive • Aerospace • Packaging • Consumer Goods • Agriculture • Food & Beverage •
General Manufacturing • Logistics & Warehousing

DRIVEN TO DELIVER

Your operation needs more than parts — it demands performance. S&K Industrial delivers the tools, equipment, and facility solutions that keep you moving.

Assembly Tools & Fastening Systems

Precision torque tools and fastening systems, backed by on-site setup, calibration, and support.

Hoists, Cranes & Lifting Devices

Engineered lifting solutions with design, install, and service — built around your space and capacity needs.

Conveyors & Lift Tables

Engineered to improve material flow and reduce manual strain—boosting efficiency, safety, and productivity across your operation.

Rental & Repair Service

Tool rentals, certified repairs, and torque verification — fast turnaround, local support.

Work Platforms & Prefab Buildings

Custom mezzanines, platforms, and prefab offices designed to optimize space, safety, and access.

Safety, Facility & Industrial Supplies

From PPE and facility signage to maintenance, repair, and operations (MRO) essentials — we streamline sourcing with inventory programs and responsive support.

REGIONAL REACH. NATIONAL CAPABILITY.
