Thai Public Company XYZ Increases Bitcoin Holdings to 50 BTC, Commits to BTC Treasury Vision

Bangkok, Thailand – RSXYZ Public Company Limited (Ticker: XYZ) has announced the strategic increase of its Bitcoin holdings to 50 BTC, acquiring just over 31 BTC in July 2025. This acquisition reinforces XYZ's mission to become Thailand's leading BTC treasury company, as it deepens its conviction in Bitcoin as a strategic asset reserve.

To ensure the highest levels of security and regulatory compliance, XYZ has selected BitGo Trust Company, Inc., a leading qualified custodian for digital assets, to hold its Bitcoin in regulated cold storage. This partnership also allows XYZ to acquire BTC through BitGo and settle directly into custody, minimizing counterparty risk and supporting the company's long-term Bitcoin accumulation strategy.

XYZ is pursuing a long-term strategy to maximize BTC per share, positioning Bitcoin not only as a resilient store of value but as a strategic capital base and protocol layer for future digital-native and web3 ventures. As part of this vision, XYZ plans to raise additional capital to further expand its Bitcoin treasury and align long-term shareholder value with the next generation of financial infrastructure.

With secure infrastructure and long-term capital strategy in place, XYZ is poised to lead the next wave of institutional Bitcoin adoption in the region.

About BitGo

BitGo is the leading infrastructure provider of digital asset solutions, delivering custody, wallets, staking, trading, financing, and settlement services from regulated cold storage. Since our founding in 2013, we have focused on enabling our clients to securely navigate the digital asset space. With a large global presence through multiple regulated entities, BitGo serves thousands of institutions, including many of the industry's top brands, exchanges, and platforms, as well as millions of retail investors worldwide. As the operational backbone of the digital economy, BitGo handles a significant portion of Bitcoin network transactions and is the largest independent digital asset custodian, and staking provider, in the world.
