YOUR BEST OPPORTUNITIES, SURFACED BEFORE TRIAGING

The inquiries arrive over the weekend. Your team needs to know where to start.

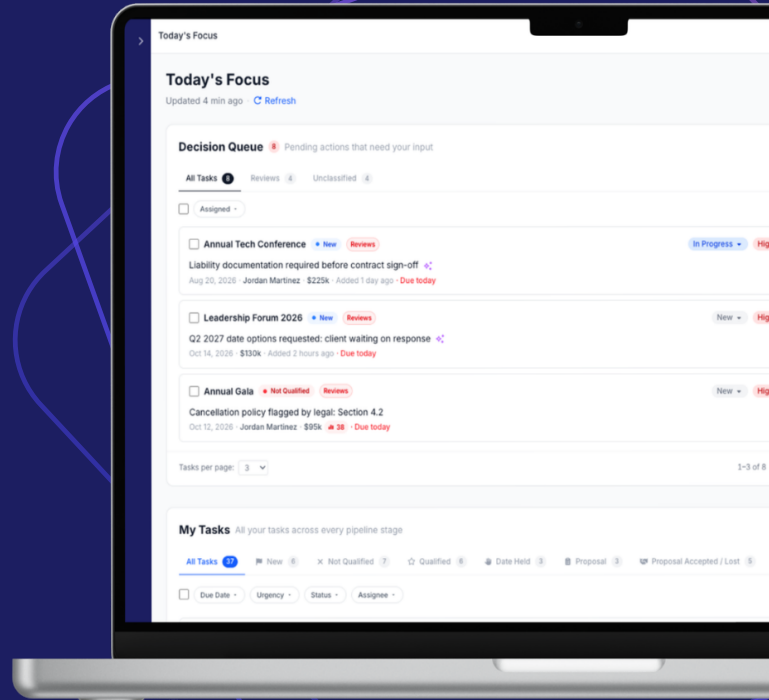

- “Which ones are worth pursuing first?”
- “Is there a returning client buried in there?”
- “35–50% of sales go to the first venue to respond.”

Every inquiry read, scored, and prioritized. Returning clients recognized. Duplicates gone. Your team sells, not sorts.

FROM CONFLICT TO PROPOSAL WITHOUT THE BACK AND FORTH

The data was always there. Now it shows up when it matters.

- Compare competing holds with contract value and margin side by side.
- AI recommends packages based on past bookings.
- Review the proposal and client email, then click Send.
