

Financial Assistance

Stroke Survivor Fund

The Stroke Foundation is proud to provide grants for stroke survivors experiencing financial hardship to help cover the cost of rehabilitation.

The Stroke Survivor Fund is a dedicated financial assistance program that helps stroke survivors and their families access essential therapeutic care during the recovery journey. Many individuals face financial barriers to receiving consistent therapy, especially when costs are not fully covered by insurance or other programs.

This fund provides direct support for key rehabilitation services, including physical therapy, occupational therapy, speech therapy, vision therapy, and music therapy—all of which play a critical role in stroke recovery.

What the Fund Covers

What We Cover — So You Can Recover

PHYSICAL THERAPY

Helps stroke survivors improve mobility, balance, and strength to regain independence in daily activities.

OCCUPATIONAL THERAPY

Focuses on restoring the ability to perform everyday tasks like dressing, eating, or personal care.

SPEECH THERAPY

Supports recovery of communication skills and swallowing function, often impacted by stroke.

VISION THERAPY

Addresses visual impairments caused by stroke, helping survivors adapt and restore visual processing.

MUSIC THERAPY

Uses rhythm, melody, and musical exercises to support cognitive, emotional, and physical healing.
