RIGHT TIMING

Career opportunities for Recruiters.

We're working with great job opportunities for UK recruiters to join leading recruitment agencies in Miami and take their careers to an international level.

TAX FREE

Florida doesn't have state income taxes.

Another perk of relocating to Miami is the lack of state income taxes. You can expect to keep more of your gross salary earnings than what you would if worked in other US states, where income tax is often over 10%.

LIFE STYLE

Work less, make more money.

The US Recruitment market is booming and you'll be able to elevate your earnings, have a better quality of life and a fast career progression.
