

IR35 Insurance

IR35 enquiries come with potentially crippling costs, with everything from penalties applied by HMRC through to defense costs, taxes and interests added to the list of potential unwanted expenditure. It is therefore important that your supply-chain has adequate protection and is covered.

Key benefits include:

- ✓ Covers both the fee-payer and end-client
- ✓ Allows you to confidently engage contractors outside IR35 knowing the tax risk is covered
- ✓ Includes a 4-year extended reporting period
- ✓ Underwritten by A-rated insurer

Our IR35 policy provides two primary sections of cover:

£100,000 of cover per contractor for professional fees to defend an IR35 status enquiry.

£100,000 of cover per contractor for Tax & National Insurance liability, interest and penalties in the event your contractor are deemed inside IR35.

Why Kingsbridge?

Any IR35 enquiry will also be defended by Kingsbridge's Head of Tax, Andy Vessey. Andy has 40+ years experience in tax and has been deeply involved with IR35 since its inception in the year 2000. He has personally defended 550+ IR35 enquiries, winning almost every single one including successfully representing Jensal Software Ltd at the First-Tier Tax Tribunal which, at the time, was one of the first IR35 cases to be heard at Tribunal for 6 years.
