

Kingsbridge's IR35 Health Check

Stay confident and compliant around IR35 with a Health Check from Kingsbridge.

Reasonable Care' is a basic principle within the Off-Payroll legislation set by HMRC. This includes the burden of businesses examining their determination processes regularly to make sure they are compliant with legislation. If reasonable care is not taken when making an IR35 determination the liability for any unpaid taxes will rest with your business. We have designed our IR35 Health Check to help ensure you remain compliant with the legislation.
