

Key Highlights of your Off-Payroll Protect Policy

Your Supply-Chain Must Be Notified of Insurance Coverage and Obligations

It is important that you provide every business in your supply chain with a copy of the Off-Payroll Protect insurance wording. That will provide the insured persons or businesses with the full terms and conditions of the insurance policy.

Cover Details

Off-Payroll Protect policy covers two core elements:

- £100,000 of cover per contractor for professional fees to defend an IR35 status enquiry.
- £100,000 of cover per contractor for Tax & National Insurance liability, interest and penalties in the event your contractors are deemed inside IR35.

Understanding Your Policy

HMRC enquiries can start anywhere within your supply chain. It is therefore important that your supply chain understands Off-Payroll Protect insurance and the obligations on them in the event of an insured event. For example, notifying an insured event to Kingsbridge in line with your policy cover.

In the event of an accepted claim, Kingsbridge's expert professional representation will react to defend the claim against HMRC, giving your supply chain the best possible chance of being successful.

How Do I Make A Claim?

Claims Notification can be made by calling **0330 174 4657** or contacting Kingsbridge directly for more information and next steps.

Important Information About your Off-Payroll Protect Policy

This document does not contain the full terms and conditions of the Policy, which can be found in the Off-Payroll Protect Insurance Policy Wording
