

# Customised Laminate **Holographic** Patch/Film

Securing documents with **retransfer printing and holographic film**

## **Extended Card Longevity**

Superior resistance to UV fading and surface abrasion ensures laminated cards last up to three times longer than standard PVC prints, maintaining data integrity.

## **Why Holographic Security Matters**

© copyright smartstripe 2026

Holographic security offers immediate visual authentication that is nearly impossible to replicate, serving as a powerful deterrent against counterfeiting and unauthorized alterations for high-security identification and government credentials.
