

MARSHALL COUNTY REGIONAL SEWER DISTRICT (MCRSD)

Phone: 574-200-0049

Website: marshallcountyrdsd.com

September, 2025

Dear PSA #1 Property Owner,

As many of you may be aware there is an effort underway to dissolve the District. These efforts have persisted even though the facts that justified its creation—and its purpose to protect public health, water resources, and property—remain unchanged.

We are grateful for the many words of encouragement and support we've received to keep this clean water project moving forward. While this matter proceeds through litigation, design activities will be largely paused; however, JPR remains available for site visits, and we continue to welcome signed easement agreements.

Previously, the District had asked for easements to be submitted no later than the end of July, in anticipation of the next SRF funding cycle, **please send your signed easement agreement to the District no later than February 28, 2026.**

Submitting your easement is one of the most effective ways to show support, along with contacting the Indiana Department of Environmental Management to express the importance of advancing this project.

Contact Information

Site visit scheduling: Phone: 574-200-0049 Email: questions@marshallcountyrdsd.com Website: <https://www.marshallcountyrdsd.com/contact-us>

IDEM: Emily Faust; Regional Sewer District Coordinator Office of Water Quality; (317) 232-5727 efaust@idem.IN.gov

We appreciate your support and patience throughout this process.

More detailed information about the project can be found on our website at: marshallcountyrdsd.com.

Sincerely,

The Board of Trustees
Marshall County Regional Sewer District
