

PRODUCT BRIEF

BrewBotz: The Always-On Autonomous Coffee Experience

Tech-Powered, People-Centered Coffee Service—Anytime, Anywhere

Our Mission

By blending smart robotics with thoughtful service, BrewBotz brings the latest trend in AI-powered food tech to life—providing reliable, hygienic, and personalized beverages around the clock, without adding pressure to your staff.

With Black Tie Circuit as your partner, you're backed by a full-service team committed to maximizing user experience—from hardware to software to on-site support.

How It Works

Powered by Hestia Robotics, BrewBotz is a fully autonomous café kiosk equipped with smart sensors, robotics, and cloud connectivity:

- Orders placed via touchscreen or mobile
- Drinks prepared inside a sealed chamber
- Refill alerts and error diagnostics sent in real time
- Cloud dashboard tracks usage and performance insights

Key Benefits

Always-On Availability
Serve premium hot or iced drinks at any hour, with minimal downtime

Contactless Experience
Touchscreen or mobile ordering with hygienic, enclosed delivery

Smart Customization
200+ drink options including coffee, tea, frappes, hot chocolate—hot or cold, dairy or non-dairy, with flavor add-ins

Intelligent Monitoring
Real-time alerts, usage tracking, and predictive maintenance

Built to Support, Not Replace
Complements your team by extending service—not workload

Who It's For

Medical Center

Provide staff and visitors convenient, always-available drinks with zero contact

Colleges & Universities

Offer modern, late-hour refreshment in libraries, lounges, and dorms

Enterprise Workplaces

Serve employees, factory teams, visiting clients, and conference guests with reliable, high-quality coffee on demand

Public Venues & Transit Hubs

Serve high-traffic environments with reliable, self-managed service

Powered by Hestia USA

Deployed in 30+ U.S. locations across 8 states, including healthcare, education, and tech campuses

Distributed by Black Tie Circuit

As the exclusive BrewBotz distributor, Black Tie Circuit ensures a seamless deployment and long-term success for every location we serve. We go beyond installation—delivering proactive support across supply chain management, hardware performance, and software optimization.

We handle everything:

- End-to-end site planning and logistics
- On-site setup, calibration, and staff training
- Ongoing supply refills, cleaning, and hardware tune-ups
- Cloud-based monitoring, software updates, and issue resolution

Our mission is to make your BrewBotz experience effortless—for you, your team, and your customers.
