---

Accoya isn't just a material choice.  
It's the mark of quality and a commitment  
to creating something extraordinary.

Accoya is an invitation to push the boundaries of architectural design. With more than 500,000 landmark projects worldwide, Accoya is redefining the potential for wood.

# Limitless design possibilities

**With over 20 years of innovation and expertise,** Accoya stands as the global leader for high-performance wood. Our patented modification process enables wood to withstand harsh exterior elements and accentuates its natural beauty, strength and character.

**Acetylation is proven science for modifying wood,** permanently transforming the cell structure to create wood that is virtually unaffected by water. We have perfected our exclusive manufacturing process to produce the best option in performance building materials.

## WOOD THAT STAYS TRUE

Accoya remains structurally sound with virtually no movement before, during and decades after the job is complete.

High usability with boards that arrive straight and stay straight

So dimensionally stable that even harsh environments will not impact installation

Significantly reduced swelling keeps this project looking good with minimal maintenance

## WOOD TO CHANGE THE WORLD

Accoya has the environmental credentials to make a bold commitment to build any project sustainably.

Peace of mind with the knowledge that all Accoya comes from FSC® certified forests

One of the few building materials certified Cradle to Cradle Gold

Non toxic and 100% recyclable

## WOOD THAT'S GUARANTEED TO LAST

Accoya solves the problem of deterioration in any climate, giving you the confidence that you made the right choice.

50-YEAR warranty above ground

25-YEAR warranty in ground or fresh water

60-YEAR service life

## WOOD WITHOUT COMPROMISE

Accoya is the ultimate workable substrate trusted by craftsman to deliver in any product application.

Exceptionable machinability, easy to work with, no special tools required

Increased strength and density, can be used in structural applications

Leave natural for exquisite grain patterns or create a flawless finish of your choice

Trusted since 2007 by architects,  
manufacturers and homeowners alike.

### STRUCTURAL

Accoya brings durability and low environmental impact to landmark structural applications. From floating bridges to spectacular curved sculptures, Accoya is the only choice for projects that integrate seamlessly with their surroundings.

### COMMERCIAL

For commercial builds where once steel and concrete would be the only option, Accoya now delivers a unique combination of structural stability, design flexibility and the natural beauty of wood.

### RESIDENTIAL

From low maintenance garden furniture and sleek summer houses to stunning cladding, decking and windows, Accoya redefines the potential for wood in residential design.

### CLADDING

Accoya's exceptional stability means fewer installation issues and a longer-lasting, high-quality finish. With wide boards, versatile surface texturing options through sawing, brushing, and charring, and a broad range of coatings, Accoya offers complete creative flexibility with no compromise on performance.

### WINDOWS & DOORS

Lighter than hardwood, Accoya comes in fixed-width sections that reduce waste, while the wide choice of coatings unlock endless design possibilities. A superior thermal performance and long service life make Accoya the smart, future-focussed solution for beautiful windows and doors.

### DECKING

Resistant to cracks in even the harshest of climates, Accoya's superior durability ensures decking remains flawless year after year. High stability means decking can be laid with smaller gaps and an even surface, making it the most barefoot-friendly option available. Low maintenance, Accoya decking has no need for coatings or frequent repairs.

Uncompromising quality.  
Unlimited potential.  
Best in class performance.
