in Salt Flat
RAILING:
Trex Signature® X-Series™
Frameless Glass Infill

Trex Transcend® Lineage®
in Biscayne

SunComfortable™ Technology

Deck colors with this symbol are engineered with heat-mitigating technology to help reduce surface temperatures.*

*Although Trex decking products with SunComfortable heat-mitigating technology are designed to be cooler than most other composite decking products of a similar color, on a hot sunny day, they will get hot. On such days, care should be taken to avoid extended contact between exposed skin and the deck surface, especially with young children and those with special needs.

Durability

Composite deck boards that stand up to both weather and weekend mishaps alike—they won't rot, warp, or splinter, and resists stains.**

Easy Cleanup

Our boards need no sanding or staining. Simple soap & water cleanup keeps decking like new.**

Marine-Grade

Water has met its match. Every Trex composite board is 100% submersible and is trusted across oceans, lakes, and everything in between. More than 2 million sq. ft. of Trex decking installed and counting has been used in waterfront projects since 2010.

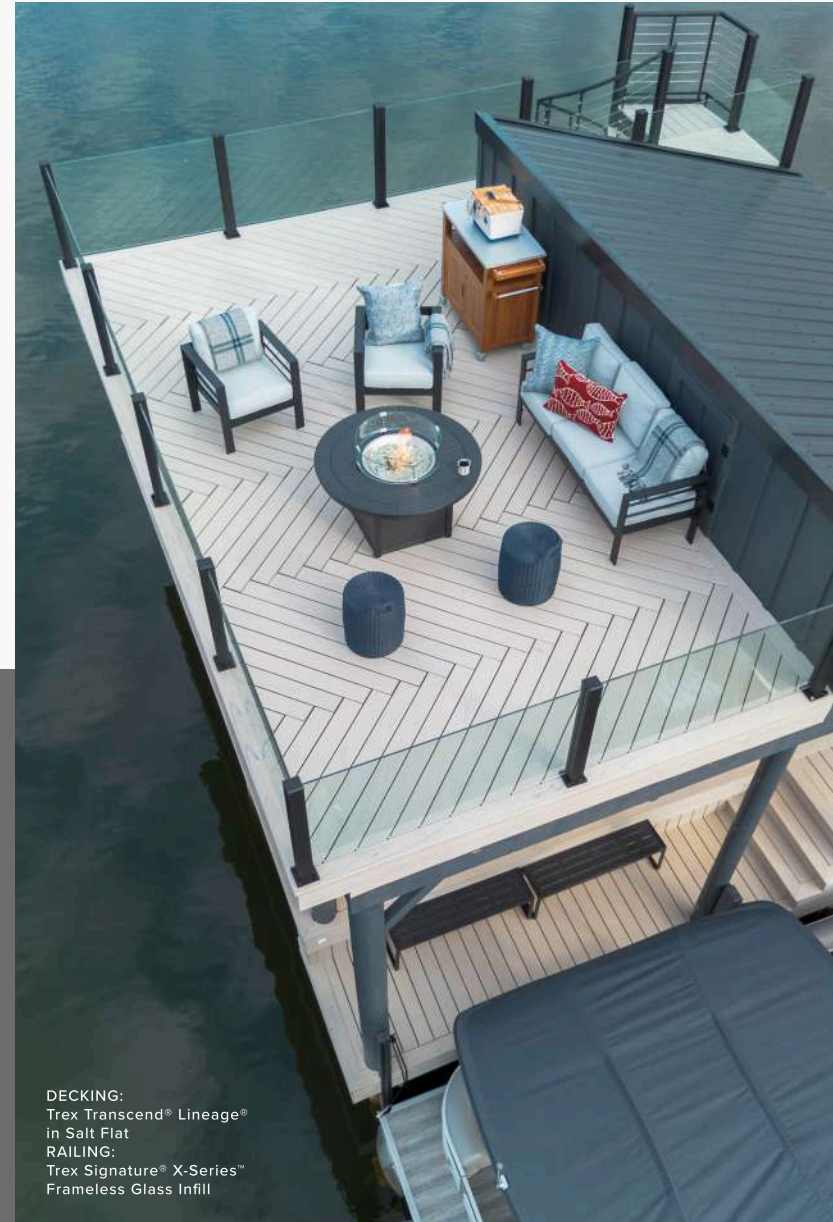

Fire-Resistant

Deck colors with these symbols are part of Trex's collection of decking built to rise to the challenge. Fire-resistant by design and Trex-trusted by name, making them an excellent option for areas prone to wildfires.

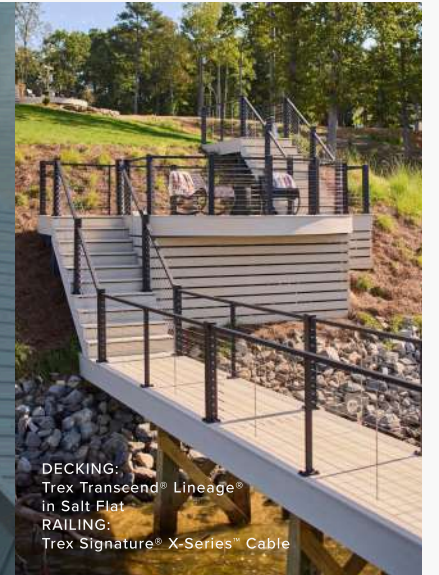

**For full details, see the Care and Cleaning Guide at [trex.com/care](https://www.trex.com/care)

RAILING

An elevated finish for spaces that feel beautifully complete

DECKING:

More Material Options

From traditional composites to sleek metal offerings, our wide selection of safe and stylish railing options offers more choices for your build.

Durability to Match Our Decking

Built with the same outstanding durability as Trex decking. Your railing is engineered to endure whatever Mother Nature sends its way.***

Install with Confidence

With railing kits, pre-assembled panels, clear instructions and the right tools, installing your railing feels straightforward from start to finish.

Elevated Style

With cable, mesh, glass and baluster infill options, you can achieve a look that suits your style and is a modern alternative to standard wood or vinyl railing.

BOARD PROFILES

Use with Trex Hideaway® Hidden Fastening System for a clean, screw-free appearance.

Trex SunComfortable™ Technology redefines what performance looks like in the heat. Our heat-mitigating* decking is engineered to reflect solar energy and reduce heat absorption, keeping deck surfaces cooler* versus standard composite decking.

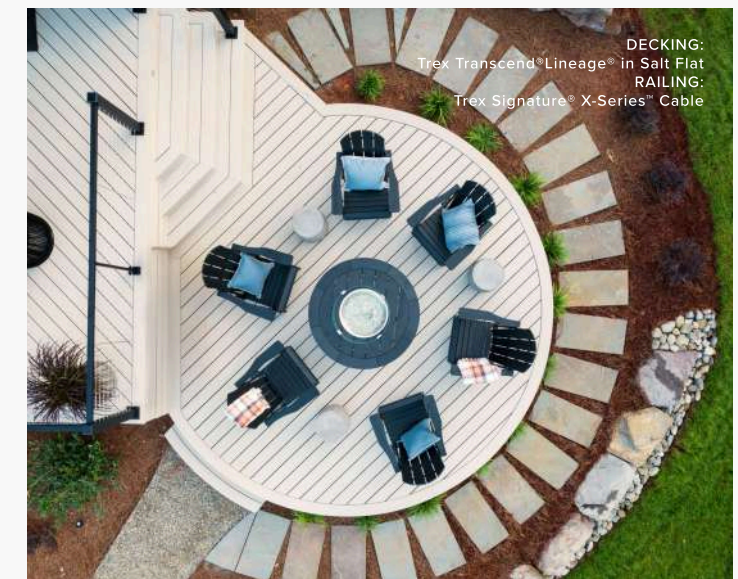

*Although Trex decking products with SunComfortable heat-mitigating technology are designed to be cooler than most other composite decking products of a similar color, on a hot sunny day, they will get hot. On such days, care should be taken to avoid extended contact between exposed skin and the deck surface, especially with young children and those with special needs.

Boards with these symbols are Wildland Urban Interface (WUI) compliant, making them an excellent option for areas prone to wildfires.

Trex Refuge PVC decking is engineered for ignition resistance with a Class A Flame Spread Rating, giving homeowners added confidence when it matters most.
