

A high-angle, close-up photograph of a wooden table and a wicker chair on a wooden deck. The table is made of light-colored wood planks and is partially visible on the left. The chair is made of light-colored wicker with a white cushion and is positioned in the center. The deck is made of horizontal wooden planks. The overall scene is bright and airy, suggesting an outdoor setting.

DECKING, CLADDING, BATTENS PRODUCT GUIDE

WoodEvo.

WHO WE ARE

At WoodEvo, our mission is clear and simple—wood, evolved. We're dedicated to crafting stylish, durable, and low-maintenance decking, cladding, and batten solutions specifically tailored for Australian homes and lifestyles. Understanding the challenges of Australia's climate, we've designed our products to handle intense sun, harsh weather, and everyday life without compromising on affordability or quality.

Our thoughtfully designed ranges provide homeowners and professionals alike with versatile choices, from the modern aesthetics and easy installation of our cladding and battens, to decking solutions featuring innovative cooling technologies, superior slip-resistance, and exceptional durability. WoodEvo's commitment to sustainability and quality is reflected through our industry-leading certifications, including Codemark and GreenTag. With extensive warranties backing each product, you can confidently create beautiful, functional outdoor spaces that will stand the test of time.

Welcome to the WoodEvo community—where quality, innovation, and style come together seamlessly.

HOW TO ORDER

1. SEE THE BOARDS

You can request free samples online, or even better, see larger displays at a local showroom. This will give you a great idea of what your WoodEvo deck will look like.

2. GET A QUOTE

Supply & install

Head over to the 'Installers' page on the WoodEvo website. You'll find a list of Accredited Installers in your area who can organise a free on-site measure & quote. Your installer will handle everything and give advice on design options such as seats, stairs, curves and more.

Materials only

Check out the 'Where to Buy' page on the WoodEvo website. You'll find a list of stores who stock WoodEvo and can provide pricing for your project.

FAQ

DECKING

How does WoodEvo perform on hot days in full sun?

WoodEvo stays cooler underfoot. HOME uses an 'M' profile and hardwood fibres for better heat control. ADVANCED offers superior cooling with a foamed PVC core and ASA capping for thermal insulation.

How slip resistant is WoodEvo? Is it suitable around pools?

Yes. HOME is R11-rated, suitable for ramps. ADVANCED leads with P5 and R13 ratings, ideal for wet and poolside areas.

How scratch resistant is WoodEvo? Is it suitable for homes with pets?

Absolutely. HOME uses HDPE capping for durability. ADVANCED features flexible ASA capping to reduce scratches from active pets.

Do I have to use an accredited installer or can I use my own tradie, or DIY?

Yes. DIY or any tradie is fine, as long as installation guidelines are followed to maintain warranty. Accredited installers are recommended for best results.

Does WoodEvo fade?

No. HOME has UV inhibitors and a 25-year fade warranty. ADVANCED uses ASA capping with a 30-year fade warranty for superior sun resistance.

CLADDING

Can I DIY the cladding?

Yes. It's lightweight and easy to install. Guide available online.

Is it sustainable and certified?

Yes. GreenTag certified for health, environment, and responsible sourcing.

Is it weather-resistant?

Yes. Resists UV, moisture, fading, and scratches—ideal for long-term external use.

Can it be installed on existing walls?

Yes. Designed for both new and existing structures, with a concealed fixing system for a clean finish.

Does WoodEvo CLADDING come with a warranty?

Yes! Backed by a 12-year warranty, covering structural integrity, resistance to fading, staining, warping, and splitting.

BATTEN

Can WoodEvo Battens be installed as a DIY project?

Yes. WoodEvo BATTEN is DIY-friendly with an online installation guide.

Are WoodEvo Battens suitable for coastal or high-humidity areas?

Yes. They resist moisture, salt, and weather with zero organic content, offering better stability than timber or WPC.

Is there a warranty?

Yes. 30-year warranty covers resistance to mold, mildew, rot, fading, staining and splitting. Full terms on our website.

Is it easy to cut and install?

Very. Cut with an aluminium blade. Install with visible screws or hidden plugs for a seamless look.
