

OUR PARTNERS DESERVE MORE

PREFERRED SUPPLIER AGREEMENT CARGILL

Intralox has a Preferred Supplier Agreement with Cargill. The discounts and services outlined in this agreement are already resulting in significant annual company-wide savings.

By partnering with Intralox, Cargill benefits from Intralox's 50+ years of experience in developing innovative conveyance solutions. This allows Cargill to focus on providing value to their customers while guaranteeing operational excellence and high food safety standards on related conveyance systems.

- **Business alignment:** Intralox and Motion Industries are working together to provide expertise in product knowledge and superior customer service and support.
- **Stronger discounts** on various modular plastic belting and accessories, ThermoDrive® belts, Activated Roller™ belts, sprockets, and expedited services.
- **Boxed belt program:** Substantial additional discounting, same-day shipping, and no expediting fees on purchases of Cargill's most frequently used belting: Series 800 and 1800.*
- **Flat pricing** available for most standard Intralox belts. Maximum volume-based discount applicable when earned on Series 800, 1800, and 2400.
- **Efficient service:** Intralox provides manufacturing part numbers for all standard belts.
- **3D simulation services and layout consulting** for packaging automation projects, shortening project implementation time and minimizing risk.
- **Intralox® FoodSafe™ assessments:** Diagnostic services designed to optimize belt application, usage, maintenance, and sanitation practices on specific, critical conveyors.
- **One year of IntraloxIntelligence at no charge** for new spiral belt installations. IntraloxIntelligence is a patented sensing technology that helps reduce total cost of ownership and maintain optimal spiral performance.
- **Plant surveys** to ensure the correct belt choices for each application.
- **Belt satisfaction guarantees:** Intralox guarantees belt performance in all applications we approve, or you get your money back—unconditionally.
- **Engineering services on demand:** Our Technical Services Group can review your application, make recommendations, perform tests, and provide on-site troubleshooting assistance, training, and seminars.

For more information on Cargill's Preferred Supplier Agreement with Intralox, contact Intralox Customer Service. You may contact your local Motion Industries representative for non-belt-specific inquiries.
