

TECTORIUS® TEC-BOND® 235

Pre-Applied Fastener Adhesive & Thread Locker

DESCRIPTION:

The Tec-Bond® 235 Series of thread locking products are room-temperature curing, microencapsulated adhesives. They can be applied to male or female threaded fasteners of virtually all sizes, configurations, compositions and finishes.

Tec-Bond 235 products contain microencapsulated reactive elements that are suspended in a quick-curing resin, carried in a solvent medium.

The shearing forces caused by installation of the fastener to the mating part release reactive compounds that cure into a tough, well-bonded polymer. The resulting matrix rapidly bonds the surfaces, semi-permanently locking parts together and sealing leak paths.

Tec-Bond 235 Booster

Introducing our new and improved booster that comes with every order of Tec-Bond 235. Proper addition of booster increases performance torque 100-200%!

PRODUCT FEATURES:

- » **Unaffected By Automotive Fluids:** these materials resist and seal against most automotive fluids. Oil, water, antifreeze, and gasoline have virtually no effect on this family of materials once final cure has been achieved.
- » **Variety of Strengths, Colors, & Viscosities:** this product is available in a variety of colors (for easy part inspection) and formulas to best suit the customers' coating equipment. A wide range of similar Tec-Bond products are formulated to satisfy most thread locking requirements.
- » **Saves Money:** Tec-Bond 235 products save valuable time and are less expensive than applying bottled thread locking compounds at the point of assembly.
- » **Suitable for Production Coating:** Each grade of the 235 Series is available in viscosities suitable for use on a broad range of production coating equipment.

Specific formulations of Tec-Bond™ 235 meet or exceed the performance requirements of the following standards:

AUTOMOTIVE:

- Chrysler PF-6616 & MS-CC-76
- Ford ES-20007-S100, ES-20010-S100
ESS-M11P24-A1 & ESS-M11P24-A2
- General Motors GM6175M & GM6194M

INDUSTRIAL FASTENER INSTITUTE:

- IFI 125
- IFI 525

OEM:

- Detroit Diesel 80K15
- Meritor/Rockwell International Q-29
- Caterpillar 1E2486

Tec-Bond 235 is available in two grades:

Tec-Bond 235-IN is suited for all-purpose use.

Tec-Bond 235-PR was developed with precision assemblies in mind where performance on physical properties are tightly controlled and microcapsule character is specifically engineered.

TECTORIUS® TEC-BOND® 235

Pre-Applied Fastener Adhesive & Thread Locker

SPECIFICATIONS:

	Grade 235	Grade 235 DPC
Standard Color	Sapphire	Sapphire
Specialty Colors	Yellow, Red, Green	Yellow, Red, Green
Variant Purpose	Standard Formula	Solvent removed for transport efficiency
Carrier Medium	Toluene	None / Dry Concentrate
Installation Torque (in/lbs.)	<10	<10
Break/Prevail Torque After Full Cure (in/lbs.)	225/250	225/250
(Nm)	25/28	25/28
Temperature Range (°F)	-40/275	-40/275
(°C)	-40/135	-40/135
Fixture Time	>90 min.	>90 min.
On-Part Life*	4 years	4 years
Full Cure Time @ Room Temperature	72 hrs.	72 hrs.
Bulk Shelf Life	1 year	3 years

Torques based on 3/8" - 16 dry phosphated bolts and nuts.

* Varies due to storage conditions.

*For a more environmentally friendly option, we offer **Tec-Bond 240**, a water-based version of Tec-Bond 235.
