All prices are exclusive of VAT.

URGENT ORDERS

When placing an order with us, please clearly state if the order is 'URGENT' and the date required.

UPDATING PRICES

Cattani reserve the right to alter prices of capital equipment and spare parts without prior notice at any time.

WARRANTIES

All Smart Suction systems and Oil-less Compressors must be registered with SmartApp as soon as they are installed.

Once registered all Cattani Oil-less Compressors are supplied with a 5 year warranty* and Cattani Smart units are supplied with a 3 year warranty*. All other capital equipment including Turbo Jet units are supplied with our 12 month warranty*. All warranties exclude tubing. *Subject to Terms and Conditions of servicing schedule.

EXTENDED WARRANTIES

Extended warranties can now be purchased with the following:

- AC100, AC200, AC300, AC400 and AC600 range of Compressors extending the warranty by 2 years* to 7 years total.
- Micro Smart, Turbo Smart, Turbo Smart 2V and Turbo Smart HP Systems extending the warranty by 2 years* to 5 years total.

Please Note: Extended Warranties must be purchased with the above units, they cannot be purchased after initial sale.

*Subject to Terms and Conditions of servicing schedule, proof may be required.

LOOKING AFTER YOUR SYSTEM

Cleaning, disinfection and maintenance of your system is essential to ensure it continues running as expected and is a requirement of the product warranty. Cattani recommend the use of their Magnolia cleaning products to cleanse and disinfect their units, use of other cleaning products will void the warranty.

For our complete Warranty and Trading Terms and Conditions please see the last page of this Price List.

OIL-LESS COMPRESSORS

HIGH QUALITY, CLEAN, DRY AIR

DELIVERING A MINIMUM OF 50 LITRES / MINUTE PER CHAIR*

RELIABLE SYSTEMS SINGLE SURGERY TO BESPOKE SYSTEMS

Our range of compressors produce clean, dry, oil-less air, protecting the dental unit, rotary instruments, staff and patients.

Compressor filters provide superior air purification, however these can be further upgraded to **HEPA H14 FILTERS** providing an even higher level of filtration.

HAND BUILT AND QUALITY CHECKED at every stage of production and fully conform to ISO standard 22052.

BIOCOTE® SILVER ION TECHNOLOGY

Our Compressor receivers are coated internally, delivering effective protection against microbes such as bacteria and mould. Permanent antimicrobial protection, guaranteed.

The exterior is coated with an electrostatic paint.

BioCote® Silver Ion Technology

delivers highly effective protection against microbes such as bacteria and mould

LOW MAINTENANCE

Cattani Compressors are built with a self-purging drying column, requiring minimum maintenance.

SPECIALIST COMPRESSORS FOR MILLING MACHINES

Oil-less Compressors which can run up to 10 bar.

SOUND REDUCING HOODS AVAILABLE

All compressors can be supplied with fitted sound reducing hoods.

Our AC100, AC200 and AC300 compressors can be fitted with a sound reducing cabinet which reduces noise levels to an impressive 52dB(A).

Supplied with a 5 year warranty*. An additional 2 year warranty* can now also be purchased, increasing the warranty from 5 to 7 years.

* Cattani compressors when correctly specified will deliver the minimum requirements of 50 Litres / minute per chair (at 5 bar pressure) when running simultaneously. Registration on SmartApp should be completed by an engineer upon installation and is a requirement of the units warranty (see our terms and conditions for further information). Warranties are subject to Terms and Conditions of servicing schedule. Additional 2 year warranty must be purchased with the unit at point of sale.

MORE THAN 50 YEARS EXPERIENCE IN AIR TECHNOLOGY

HOW IS IT WE LEAD IN OUR FIELD, WHEN WE COST LESS THAN THE ALTERNATIVES? THIS IS HOW:

Constant research

This lets us apply the latest technology in all of our products and solutions.

We enhance performance

Electronic and information technology allow us to increase the performance and reliability of our products.

We reduce costs

Less maintenance and energy costs mean on a cost-benefit analysis we are always the most economical.

We reduce environmental impact

We save 50% on raw materials in the production stage and our customers save between 30% and 50% on electrical consumption thanks to inverter drive technology.

OIL-LESS COMPRESSORS CUSTOM BUILT

Large Clinics 3~ only

Custom-built to client specifications – please contact Cattani ESAM (UK) Ltd to discuss your large clinic requirements
 For large clinics, hospitals & universities
 Modular design to suit various space & access requirements
 Full diagnosis & running information in the plant area via a touchscreen
 Remote access to control panel, for off-site monitoring or by clinic engineering staff

Our Blok-Jet systems (available with 6, 9, 12 compressor heads depending on installation specification) which are electronically adjustable to run the adequate number of compressor heads based upon pressure requirements, ensure utmost flexibility and at the same time maximum security against plant stoppages from compressor failure. It is in fact possible to replace any of the compressor heads without stopping the plant. Blok-Jet systems are particularly suitable for hospital, food industry and pharmaceutical plants.

Custom-Built Modular Systems

Built to fit space
 Refrigerating cycle dryer
 Control panel fitted with PLC & touch screen

Full HTM 2022 systems are available on request, HTM 2022 supplement 1:

- Provides advice and guidance on the specific requirements of Dental Air Systems for use in dental hospitals, dental teaching schools, clinics and surgeries and primary care trusts (PCT)
- The supplement should be followed for all new installations and refurbishment, existing installations should be assessed for compliance with this supplement
- The guidance should generally be followed for these systems and must not be confused with HTM 01-02 for medical air and gasses or European pharmacopeia documents

-20°C Dew point is more than adequate for dental air and 60% diversity is acceptable over 10 surgeries but 100% should be considered for teaching facilities.

OIL-LESS COMPRESSORS FOR USE WITH MILLING MACHINES - UP TO 10BAR

These compressors have upgraded parts which allow them to run up to 10bar, this makes it possible for the compressor to deal with the extra stresses when used with milling machines. Available in 1~ and 3~.

Receivers are coated with BioCote® Silver Ion Technology which delivers highly effective protection against microbes such as bacteria and mould. Permanent antimicrobial protection, Guaranteed.

MORE THAN 50 YEARS EXPERIENCE IN AIR TECHNOLOGY

HOW IS IT WE LEAD IN OUR FIELD, WHEN WE COST LESS THAN THE ALTERNATIVES? THIS IS HOW:

Constant research

This lets us apply the latest technology in all of our products and solutions.

We enhance performance

Electronic and information technology allow us to increase the performance and reliability of our products.

We reduce costs

Less maintenance and energy costs mean on a cost-benefit analysis we are always the most economical.

We reduce environmental impact

We save 50% on raw materials in the production stage and our customers save between 30% and 50% on electrical consumption thanks to inverter drive technology.

TURBO SMART MULTIPLE SURGERY VARIABLE SPEED SYSTEM

IDEAL FOR CONSERVATION AND SURGICAL APPLICATIONS

HIGH AIRFLOW AND HIGH VACUUM POWER USING ONLY THE POWER REQUIRED

Supplied for two surgery use, upgradable to four surgeries if required.

WI-FI CONNECTION

Via the free Cattani SmartApp, enabling professionals to check unit status, alarms, servicing and maintenance requirements*.

DIGITAL DISPLAY

Informs the user of the amalgam container level, operating temperature and hours worked for accurate servicing.

PROGRAMMABLE VACUUM LEVEL

Turbo Smart systems can automatically alter vacuum on demand and respond to any change in use from the surgeries.

SOUND PROOF CABINET AVAILABLE

Turbo Smart cabinet can reduce noise levels to an impressive 51.6 dB (A).

TURBO SMART 2V

Ideal direct replacement for any wet-ring system. All the same features as the Turbo Smart with the addition of an extremely powerful Uni Jet 75 2V motor, producing 270mbar negative pressure for up to 4 surgeries.

TUV certified 98.1% amalgam retention.

Turbo Smart and 2V systems are supplied with a 3 year warranty*. Extended warranty now available*

* Warranties are subject to Terms and Conditions of servicing schedule. Registration on SmartApp should be completed by an engineer upon installation and is a requirement of the units warranty (see our terms and conditions for further information). Warranties are subject to Terms and Conditions of servicing schedule. Additional 2 year warranty must be purchased with the unit at point of sale.

MORE THAN 50 YEARS EXPERIENCE IN AIR TECHNOLOGY

HOW IS IT WE LEAD IN OUR FIELD, WHEN WE COST LESS THAN THE ALTERNATIVES? THIS IS HOW:

Constant research

This lets us apply the latest technology in all of our products and solutions.

We enhance performance

Electronic and information technology allow us to increase the performance and reliability of our products.

We reduce costs

Less maintenance and energy costs mean on a cost-benefit analysis we are always the most economical.

We reduce environmental impact

We save 50% on raw materials in the production stage and our customers save between 30% and 50% on electrical consumption thanks to inverter drive technology.

Maxi Smart is a totally new concept in dental vacuum for larger installations. The system uses flow target technology unique to Cattani.

Flow target guarantees 300 litres per minute air flow at every suction tip regardless of main pipework diameter and length.

This is an ideal replacement for existing systems as well as for new projects. Maxi Smart can be paralleled together for larger installations, variable speed motors with inverter control keeps running costs to a minimum.

HTM 2022 Supplement 1:

- Provides advice and guidance on the specific requirements of Dental Vacuum Systems for use in dental hospitals, dental teaching schools, clinics and surgeries and primary care trusts (PCT)
- The supplement should be followed for all new installations and refurbishment, existing installations should be assessed for compliance with this supplement
- The guidance should generally be followed for these systems, 300 litres per minute at the large bore cannula (15mm \pm 1mm) and a maximum vacuum of 18kPa (180mbar)
- ISO 10637
- States a minimum of 250 litres per minute at a large bore cannula (15mm \pm 1mm) and a maximum vacuum of 25kPa (250mbar)
- 60% diversity in vacuum is acceptable over 10 surgeries but 100% should be considered for teaching facilities.

ESAM MOTORS SIDE CHANNEL BLOWERS

HIGH QUALITY ASPIRATORS FOR VARIOUS APPLICATIONS

HIGH PERFORMANCE RELIABLE INDUSTRIAL MOTORS

ESAM motors are manufactured in die-cast aluminium alloy, this ensures high performance, reduced production costs, increased output and promotes uniform quality.

ESAM motors are built for industrial use and renowned for their reliability.

Standard motors are two pole, totally enclosed air cooled, continuous duty rated, IP55 protected, insulation class F, and are built according to regulations CEI EN 60034-1:2011-03 (CEI 2-3).

Motors are protected by a thermal device.

The standard side channel blowers are designed to handle clean air up to a maximum of 40°C. However, Cattani can supply special units made to individual specification if required.

Supplied with a 1 year warranty*

* Warranties are subject to Terms and Conditions of servicing schedule.

CONSUMABLES

MAGNOLIA HYGIENE CLEANING

Recommended by Cattani – Comprehensive range of disinfectant & sanitising products for cleaning dental machines, equipment & surgery surfaces

Puli Jet Plus 2.0 (4 x 1 litre bottle) 060922

Disinfects, deodorises and cleans all dental aspirators (wet, semi-wet and dry line), does not contain aldehydes and phenol. 1 litre makes up to 125 litres of disinfectant or 250 litres of cleaner.

WHEN TO USE: Every evening.

HOW TO USE:

1. Shake the bottle. Then unscrew red cap slightly.
2. Squeeze bottle to distribute 10ml of liquid to top container.
3. To mix, fill the 'Pulse Cleaner Bucket' with warm water (approx temp 50°C) up to the third marker, then unscrew the red cap on the Puli Jet bottle fully and pour the Puli Jet into the 'Pulse Cleaner bucket'.

GENERAL CLEANING: We recommend that you cleanse the aspiration system every evening, at the end of work. For this, fill the Pulse Cleaner Bucket up to the third marker with warm water (approx temp 50°C) and add 10ml of Puli Jet solution.

DISINFECTION: We recommend to disinfect the aspiration system once a week with a higher concentrate of Puli Jet. For this, fill the Pulse Cleaner Bucket up to the third marker with warm water (approx temp 50°C) and add 20ml of Puli Jet solution.

Pour any excess down the spittoon.

RANGE OF ACTION: Detergent disinfectant with bactericide, fungicide, virucide (HBV, HCV, HIV) and tuberculocide, proven effective in less than 15 minutes. Conforms to EN14476. Anti-scale.

*Class IIa medical device CE 0425, EN14476, EN14563, EN14562, EN14561, EN13624, EN13727.

Puli Jet Classic (4 x 5 litre bottle) 040715

Cleans, sanitises and deodorises dental suction units. 5 litres makes up to 250 litres of cleaner.

WHEN TO USE: Every evening.

HOW TO USE:

- 1) Fill the 'Pulse Cleaner Bucket' with warm water (approx temp 50°C) up to the third marker, then measure out 30ml of Puli Jet Classic cleaner and pour it into the 'Pulse Cleaner bucket'.
- 2) Using the terminals, aspirate the mixed Puli Jet Classic solution from the Pulse Cleaner through the equipment.

Pour any excess down the spittoon.

RANGE OF ACTION: Detergent odour repellent antibacterial.

Puli Jet Classic Dosing Pump Kit 040837

Dosing kit for 5 litre Puli-Jet Classic only.

Pulse Cleaner 040720

Pulse Cleaner is a turbulence-maker.

To prepare the Puli Jet solution, pour the concentrated product into warm water (approx temp 50°C) and then place the terminals on the pistons.

The cleansing aspiration will start without any further operation.

The solution left in the container can be used to sanitize the spittoon bowl.

Do not rinse the aspirator; do not turn on the spittoon-rinsing tap: Puli Jet Plus will go on sanitizing and dissolving blood and mucus all night.

Comes with 1 x 16mm & 1 x 11mm connections and reducers for smaller terminals.

Supplied with HVE adapter and base

Air flow meter dimensions: H26 x 05 x W5cm.

Pump Flow Meter (B) **PUMP-FLOW-METER**

Pump flow meter 200-2000 ltr per minute
Supplied with 50mm and 40mm adapters

Pump flow meter dimensions: H44 x 010 x W10cm.

Vacuum Test Kit **VACKIT**

Asameter & pressure gauge for measuring vacuum flow & negative pressure - Supplied in carry case

Compressor spanner **COMP-SPAN**

For bung removal on Cattani compressors

WARRANTY & EXTENDED WARRANTY

TERMS & CONDITIONS

Warranty details for Micro Smart, Turbo Smart, Turbo Jet and Oil-Less Compressors.

Cattani Esam UK & Ireland Ltd warranties are only valid providing the following is adhered too, this is in addition to our normal terms of trading below, they are also available on the Cattani website: www.cattaniesam.co.uk.

1. All warranties cover faulty manufacture of mechanical and electrical components only. This does not include consumable items (such as plastic parts, tubing and pipework). Faults deemed due to negligence or misuse will not be considered.
2. The system will be installed as per the recommendations in the operator's manual, by engineers who have attended the relevant training course at Cattani Esam UK Ltd.
3. The Cattani system must be maintained as per manufacturer's instructions, by a qualified engineer.
4. Daily maintenance must be carried out by trained surgery staff, otherwise this will void any warranty.
5. The user will be instructed as to the operation and maintenance of the system, it is the user's responsibility to request further training should they require, there may be an additional charge for this service.
6. The housing should be suitable for the appliance, and temperatures must be maintained as per manufacturer's instruction (+5°C - +35°C). We recommend that forced air ventilation be installed for all Cattani capital equipment.
7. During the warranty period, the user must only use Magnolia cleaning products (Puli Jet Plus or Classic), these must be mixed as per the manufacturer's instructions and cleaning carried out using the manufacturer's method.
8. The system must be serviced using the genuine Cattani service kit, the service must be carried out within 13 months of the installation date and every 12 months thereafter (proof may be required).
9. Faults of any kind must be reported to the supplier and corrected within 36 hours, this includes all breakages, leaks or electronic faults.
10. Neglected and contaminated goods will not be accepted for return unless the correct 'Returns Procedures' have been followed, these can be found below.
11. Motors that are covered by the warranty will not be covered if water ingress is found on inspection.
12. As of 1st April 2022 all Cattani Smart Suction units must be registered on the Smart App, please contact us via email info@cattaniesam.co.uk for further information.
13. Smart Suction systems that are not registered upon installation will only qualify for 12 months warranty as per manufacturers terms and conditions (4 week grace period). Once registered you will receive the full 3 years warranty on Smart Suction units.
14. As of 1st April 2024 all Cattani Oil-Less Compressor units must be registered on the Smart App, please contact us via email info@cattaniesam.co.uk for further information.
15. Oil-less Compressors that are not registered upon installation will only qualify for 3 years warranty as per manufacturers terms and conditions (4 week grace period). Once registered you will receive the full 5 years warranty on Oil-Less Compressors.

RETURNS PROCEDURE

GENERAL

All returns must be pre-authorised by a member of staff at Cattani UK and must be returned with a completed RMA form.

A product that has been purchased in error can be returned for a full refund within 30 days of delivery as long as it is still in its original, unopened packaging. A refund will be given on the product cost only, this will not include postage and packaging. The refund of the goods may also be subject to a restocking charge of 50% of the invoiced price of the goods. Goods ordered correctly by the Customer but incorrectly supplied by the Company will be accepted by the Company for a full credit, this includes the cost of postage and packaging. The company will also send paperwork for the collection of the goods.

Any returned and warranty goods must be sent to the Cattani UK Warehouse, unless otherwise stated.

The Company will not accept returns of tubing specifically cut to 1.5m lengths or less.

When goods are made to special order, full payment may be requested following confirmation of order. Once the order has been placed with our manufacturers in Italy the Company will not accept any cancellations or returns.

Parts returned for examination to the Company by the Customer are to be sent at the Customers expense to the Cattani UK Warehouse.

RETURNS PROCEDURE

WARRANTY ITEMS

All returns must be pre-authorised by a member of staff at Cattani UK and must be returned with a completed RMA form.

All claims under Guarantee must be accompanied by copy paperwork supplied (invoice or delivery note), which must be completed on installation and returned to the Company, without this no claim will be accepted. Proof of purchase i.e. delivery note or invoice number can also be accepted as proof of Guarantee.

Spare parts required for replacement under Guarantee must be clearly requested as under Guarantee when ordered and must include proof of purchase. These will be supplied at no charge. Claims for credit on parts ordered for under Guarantee items will not be granted.

Returned and warranty goods must be sent to the Cattani UK Warehouse, unless otherwise stated.

TRADING

TERMS & CONDITIONS

1. No binding contract shall be deemed to have been made with the Customer until the Company has confirmed the Customer's order in writing in an acceptance of order. Following the acceptance of an order the company guarantees to store any personal data on secure servers and will never sell, share or distribute your information to other companies or third parties without your permission. For full details please see our privacy policy which can be found on our website: www.cattaniesam.co.uk.
2. All and any business transacted and all or any service, advice or information provided, whether gratuitously or not by the Company shall be carried out provided subject to the terms and conditions and exemptions hereinafter set out and all such terms, conditions and exceptions shall apply to and be deemed to be incorporated in any agreement or contract made between the Company and its Customers. No variations or alternation of these terms, conditions and exceptions will have effect unless recorded in writing and signed by the Company.
3. Prices set out in acceptance of order are exclusive of value added tax (VAT) or any other taxes, levies or duties that may from time to time apply.
4. Prices set out in acceptance of order will be the price invoiced in the case of orders or contracts or any part thereof accepted for delivery within 2 months of the date of the acceptance of order. In the case of orders or contracts or any part thereof for delivery beyond the 2 months of the date of acceptance of the order or contract the Company shall be at liberty to revise quotations with or without notice (in the event of variation in the cost of components, materials, labour, transport or any other costs or charges applicable to the goods).
5. Payment of the invoice price shall be made net cash against invoice without deductions (and payment shall not be withheld or deferred on account of any set-off, claim or counterclaim). Invoices issued in one month should be paid by the end of the month following.
6. Any time or date for delivery named by the Company is intended as an estimate only and the Company shall not be liable for any loss, damage or expense arising directly or indirectly out of delay in delivery.
7. Delivery, if required by the Customer, shall be made to the address specified by the Customer in the UK. Customers are required to provide free assistance in unloading. The Customer shall fully indemnify the Company for any claims or proceedings arising from any act, neglect or default on the part of the Customers' servants or agents in so assisting.
8. If for any reason the Customer is unable to accept delivery of the goods at the time when the goods are due and ready for delivery, the Customer shall be liable to the Company for any reasonable cost of storage in addition to any other payment or damages for which the Customer may become liable in respect of the Customers failure to take delivery at the appropriate date.
9. Property in the goods shall pass to the Customer on payment. The risk in goods shall pass to the Customer on delivery.
10. If the Company adopts any change or alterations in the construction or design of the goods or the specification thereof, the Customer shall accept the goods so altered or changed in fulfilment of the order.
11. Contracts and orders are accepted subject to the Company receiving any necessary licence to purchase or to use the required materials or components and, to the Company being able to obtain such materials or components.
12. In the event of riots, strikes, lock outs, trade disputes, stoppages or restraint of labour or any disturbances or disputes with workmen, whether partial or general and whether on the Company's premises or elsewhere, inability to obtain, or shortages of, labour accidents, breakdown of plant or machinery, fire, explosion, political disturbances or impediments, hostilities, blockage or embargo, or any other cause whatsoever beyond the control of the Company, the Company shall be entitled at any time, on notice to the Customer, to determine the contract (or to suspend delivery).
13. The Company shall in its absolute discretion be entitled to sub-contract the fulfilment of the order or any part thereof or any part or all of the business or services to be rendered under or in connection with any agreement or contract with the Company.
14. In the case of partial completion of any order, the Company shall be entitled to a quantum meruit in respect of all work done by it, without prejudice to any rights of the Company in the event that non-completion is occasioned by the Customer.
15. The Customer shall indemnify the Company against all damages, penalties, costs and expenses to which the Company may become liable if any work done in accordance with the Customer's specification involves infringement of a registered design or patent.
16. The Company shall be entitled to retain possession of the goods until payment.
17. All agreements between the Company and its Customers shall be governed by English or Irish Law and be within the exclusive jurisdiction of the English or Irish Courts.
18. The Company shall not be liable to its Customers for any loss of profit or contracts or any consequential loss whatsoever, however caused.
19. In the event of personal injury or damage to property the liability of the Company shall not exceed the sum named on the acceptance of order for any one act, neglect or default of servants or agents or others whom the Company may be responsible. The Customer will keep the Company indemnified against any such claims exceeding the sum named on the acceptance of the order.
20. The Company's products carry a year's Guarantee from the date of installation (unless otherwise stated).
21. The Guarantee covers the replacement of parts where failure is proven to be a result of faulty manufacture only.
22. The Guarantee does not include bulbs, parts made of rubber, silicon rubber, etc. or where negligence or misuse by the Customer is proven.
23. UK ONLY - Postal charges will be charged to the Customer when the Customer requires postal delivery and there will be a minimum postal charge (recorded delivery will incur a surcharge). Large packages will be sent via courier with a minimum carriage charge (subject to weight and dimensions).
24. Carriage charges will be charged to the customer.
25. When goods are returned by the Customer because they have been incorrectly ordered by the Customer, the Company reserves the right not to accept the return of goods but if they are accepted by the Company it will be subject to the payment by the Customer of a restocking charge of 50% of the invoiced price of the goods. Goods ordered by the Customer and correctly supplied by the Company will not normally be accepted by the Company for credit.
26. Returned and warranty goods must be sent to the Cattani UK Warehouse, unless otherwise stated.
27. The Company will not accept returns of tubing specifically cut to 1.5m lengths or less.
28. When goods are made to special order, payment must be made in full on delivery and the Company will not accept their return.
29. Parts returned for examination to the Company by the Customer are to be sent at the Customers expense to the Cattani UK Warehouse.
30. The Company's decision on all Guarantee claims shall be conclusive for all purposes.
31. Prices do not include the cost of connection of any equipment. It is the sole responsibility of the Customer to arrange installation.
32. All claims under Guarantee must be accompanied by copy paperwork supplied (invoice or delivery note), which must be completed on installation and returned to the Company, without this no claim will be accepted. Proof of purchase i.e. delivery note or invoice number can also be accepted as proof of Guarantee.
33. Spare parts required for replacement under Guarantee must be clearly requested as under Guarantee when ordered and must include proof of purchase. These will be supplied at no charge. Claims for credit on parts ordered for under Guarantee items will not be granted.
34. The Company reserves the right to make changes to the price of goods at any time without prior notice to the Customer.
35. A product that has been purchased in error can be returned for a full refund within 30 days of delivery as long as it is still in its original, unopened packaging. A refund will be given on the product cost only, this will not include postage and packaging.
