

SaaS platforma – celovito upravljanje infrastruktura za polnjenje električnih vozil

OCEAN EV Charging Platforma, v lasti Ocean EV Charging d.o.o., je hitro rastoči IT produkt ter eden izmed vodilnih sistemov na področju e-mobilnosti v Evropi, ki ga uporabljajo največja podjetja in multinacionalke od največjih elektro-energetskih podjetij, naftnih družb, proizvajalcev vozil in drugih vodilnih podjetij na področju elektromobilnosti. Naše rešitve so prisotne v več kot 40 državah, od Grenlandije do Avstralije.

We offer you an opportunity in a fast-growing industry!

AGILE PRODUCT MANAGER – SOFTWARE SOLUTIONS

building the infrastructure that powers the world's e-mobility

 Škofljica |  Global |  E-mobility |  SaaS B2B

Do you want to lead teams that build future-ready technology and co-create a platform that truly changes the world? 

The **OCEAN EV Charging Platform** is one of the leading solutions for managing charging infrastructure, used by companies worldwide – from Greenland to Australia. We are now expanding our development organization and are looking for an experienced **Product Manager** who will lead the team towards excellence and innovation.

After the probation period, hybrid work is also possible, but at the heart of our team, the best projects are created together.

What will you do?

As a business analyst with strong technical knowledge, you will be a key link between business stakeholders and the development team in the development and enhancement of our SaaS product:

- Analyze business requirements and translate them into clear and actionable technical specifications
- Prepare, refine, and maintain user stories, acceptance criteria, and the product backlog
- Work closely with development teams on solution design and implementation
- Actively participate in the SCRUM process (sprint planning, daily stand-ups,

reviews, retrospectives)

- Analyze data in MS SQL Server to support decision-making, verify business logic, and validate solutions
- Collaborate on system integrations and API definitions (REST / SOAP)
- Document processes, functionalities, and technical decisions
- Support product and leadership teams with analyses, reports, and improvement proposals

What do you need? 🎯

- Strong analytical thinking and the ability to understand complex business and technical requirements
- Operational knowledge of MS SQL Server (writing SQL queries, stored procedures)
- Understanding of relational databases and data models
- Experience with REST and SOAP APIs and system integrations
- Solid understanding of backend and frontend solution architectures
- Experience working in an agile (SCRUM) environment
- Excellent communication skills for working with diverse stakeholders

What gives you an advantage? ⭐

- Knowledge of the C# / .NET environment
- Experience with Web API and WCF
- Understanding of web technologies (JavaScript / TypeScript, HTML5, CSS3)
- Hands-on experience with data analysis, DWH solutions, and reporting

What about education? 🎓

- A university degree in computer science, engineering, or a related field is an advantage
- At least 5 years of experience in the role of Technical Business Analyst, Product Owner, or Solution Analyst
- Agile, proactive, and motivated mindset 🚀

What do we offer? ☀️

- Work on an international project that is actively transforming the world of e-mobility
- A young, dynamic, and team-first environment 😊
- Long-term collaboration
- Hybrid work after the probation period 💻 🏠
- Coffee, fresh fruit, and relaxation with table tennis ☕ 🍎 🍷
- An environment where your ideas are welcome and where we grow together 🌱

 **Application:**
