NORTHERN FABRICATORS

NEW PRODUCT ANNOUNCEMENT

FabricAir

Fabric Air Dispersion Systems

We are excited to partner with FabricAir, a leading manufacturer of engineered fabric air dispersion systems. This partnership strengthens our commitment to providing innovative, high-quality solutions and exceptional value to our customers.

FabricAir textile ducts provide a modern alternative to traditional metal ductwork, offering faster installation, improved energy efficiency, and a clean, architectural look. This partnership expands our ability to support your projects with innovative solutions that enhance performance and aesthetics.

Why Contractors Like It

- 40-70% faster installation
- Lightweight and easy to handle
- No insulation, painting, or balancing required
- Clean appearance and even air distribution
- Available in 9 standard colors to complement architectural spaces
- Custom colors, prints, and logos available
- Fastest lead time in the industry: 21 days from PO to delivery

Applications

- Commercial & Industrial Facilities
- Gyms & Recreation Centers
- Retail & Office Buildings
- Schools & Universities
- Aquatic Centers & Natatoriums
- Restaurants & Breweries
- And more!
