Selection Criteria

- ✓ Does the concept paper request satisfy a specific traffic safety need identified by the FDOT State Safety Office?
- ✓ Does the agency making the funding request serve a city/county ranked in the top 35% of its population group for the priority area in which funds are being requested according to the [Florida Highway Safety Matrices](#)?
- ✓ Does the crash data supplied in the concept paper's "Statement of the Problem" document an existing traffic safety problem? (Citation data and survey results can also be used to document the problem.)
- ✓ How does this request for funding tie into the [Strategic Highway Safety Plan](#) (goals and objectives)?
- ✓ If the agency was funded in the past, did it submit reports, invoices, and financial paperwork on a timely basis and implement the activities that were detailed in the subgrant agreement?
