Use of AXITEC modules with EkonoRack 2.0 and AeroRack 2.0 mounting systems

The following photovoltaic modules may be used with the flat roof mounting systems EkonoRack 2.0 and AeroRack 2.0 from KB Racking Inc.:

AC-xxxMH/144y (xxx=420-450, y=S or V)

Permitted angles of module inclination are 10°-25°. The Modules can be clamped in landscape orientation. The modules may be loaded with a maximum of 1600 Pa (pressure/suction).

With kind regards,

Emmanuel Attaliadis
