

PAB-1

POLYESTER ACOUSTICAL BOARD

Polyester Acoustical Board offers great durability and flexibility for acoustical wall and ceiling applications. PAB is an environmentally friendly polyester acoustical board developed to enhance the acoustics of interior spaces. This board works well for both retrofit and new construction applications and is both tackable and impact resistant. Being a highly versatile product, for applications other than walls PAB can be mounted directly to a ceiling deck or be easily aligned into a grid system. Polyester Acoustical Board is hypoallergenic, dust and formaldehyde free, and Greenguard Certified making it particularly attractive for office, school, and restaurant applications.

FEATURES:

- 60% post-consumer polyester-fiber
- 100% recyclable
- Resists mold, mildew & bacteria
- Tackable
- Impact resistant
- Hypoallergenic, dust-free & formaldehyde-free
- Greenguard Certified
- Easy to handle & simple to apply

APPLICATIONS:

- Fitness centers
- Art galleries/museums
- Office spaces
- Schools/libraries
- Gymnasiums
- Restaurants
