## ALEXIS DOOR™

RESIDENTIAL APPLICATIONS

The **ALEXIS DOOR** is the perfect solution for your home installation needs. With its sleek and modern design, featuring a concealed hinge system, you can enjoy exceptional noise control in any setting. Whether you're looking for a home studio, office, or a peaceful sanctuary to unwind, the Alexis Door delivers the performance and aesthetics you need. It also comes fully assembled from the factory, making installation a breeze so you can quickly move on to your next project.

### Experience Superior Sound Control with the QuietSwing Alexis Door:

- 1-3/4" door thickness designed to easily work with standard building hardware
- Hardware, seals, and hinges are expertly installed to ensure optimum performance
- ADA-compliant single continuous compression seal ensures minimal opening force
- Effortless opening with lightweight/level swing
- Split-frame assembly allows for simple installation into existing openings
- All doors with vision panels are delivered factory-glazed.
- Rigorously tested at independent NVLAP-approved testing facilities
