Chromebooks

Simple, secure, and affordable laptops built to meet students' needs in the classrooms.

Benefits

-  Fast boot-up and automatic updates keep learning on track
-  Durable, rugged design withstands daily student use
-  Long battery life powers learning all day
-  Affordable pricing with models for every grade level

Kelly Sain

Chief Technology Officer
Thompson School District

"Through Vivacity's consultation, we were able to identify the right device configuration for each grade level. Their expertise helped us balance budget constraints with educational needs so we could make student-centered decisions. In addition, some of our teachers are opting in when they see the Chromebook Plus."

Learn more about Vivacity's partnership with Thompson School District and their Chromebook deployment.

Chromebox OPS for Interactive Flat Panels (IFPs)

A powerful, centrally managed ChromeOS device ideal for shared spaces, signage, and flexible classrooms.

Benefits

Modernize your IFPs: Upgrade existing IFP displays with Chromebox OPS (Open Pluggable Specification), a plug-in device that enhances collaboration and maximizes current investments

True ChromeOS Experience: Unlike panels with Google Mobile Services (GMS), Chromebox OPS delivers the complete ChromeOS. It offers robust security, seamless Google ecosystem integration, and availability as a standalone or pre-installed option

Extend Device Lifespan: Keep your flat panels running up to 10 years while reducing downtime, lowering maintenance costs, and protecting your investment

Centralized Management: Easily manage Chromebox OPS with a Chrome Education Upgrade (CEU) license through your Google Admin Console

VIVACITY

Vivacity modernizes shared spaces with seamless OPS installation and CEU integration. [Learn More »](#)
