movingimage

About us

movingimage empowers companies to create value through video.

From creation to hosting and distribution, movingimage offers a one-stop-shop for all video applications, live and on-demand. Its centralized cloud-based solution enables companies to manage all types of video content centrally and efficiently and stream it in superior quality on any end device, creating a unique video experience for their audience.

The platform can be seamlessly integrated into existing IT environments for content, digital asset, and product information management and meets the most stringent security standards. Next to the SaaS products, movingimage's video experts support companies of any size in creating high-quality corporate videos, and in delivering livestreaming excellence especially for complex live events.

The Berlin specialist's GDPR-compliant solution has been trusted by the largest companies in the DACH region for over 15 years.

Our Solutions

Our enterprise video platform includes intelligent solutions for video creation (live and on-demand), management, distribution, and playback.

Our video production team offers high-quality video productions and livestreaming support from a single source. VideoCreator Pro enables efficient, AI-driven video creation. CorporateTube is our out-of-the-box video portal, with VideoManager Pro serving as the video content management system. The event platform Virtual Events allows hosting virtual events and offers numerous networking opportunities. LiveStream Pro facilitates the delivery of live and on-demand content. With Livestream Interactive, you can create top-class interactive livestreams.
