

Pray for always:

- God's blessing on the President** and all those in leadership in our nation, state and city.
- All members of our staff** as they seek to honor the Lord in their respective ministries.

Missionary focus of the week:

- Joanne Maiyer, serving with OMS in Greenwood.

New Prayer Requests:

- Darrell Stevens**, who is back in the VA hospital, after several falls. He is discouraged and would appreciate your prayers as much for his discouragement as for his physical health.
- Hearl Herrod**, who is having a procedure 12/5 that will target the liver cancer. He should be home the same day. He appreciates your prayers.
- Nick Moye**, who is much better after having a heart ablation. He has an MRI scheduled and would appreciate prayers for that.
- Gary Harris**, who had surgery on 8/27. Doctors had to remove 50% of his skull. Praise, Gary had an MRI done and the results show NO sarcoma or tumor. Gary is more than halfway through with his radiation treatments. Please continue to pray for no side effects. Please pray that the blisters on his ear will not get worse and that the new skin on his scalp will be unaffected. He is very tired. Please pray for Paige as she cares for him.

On-going Requests:

- Jack Haun**, is doing better. He is getting ready to celebrate his 93rd birthday and appreciates continued prayers for his health.
- Mary Helm**, who completed her last treatment earlier in November. Please pray for her to gain some weight and get her strength back and for a good follow up in 3 months.
- Jill Helm**, daughter of John and Mary Helm, who has fast progressing Alzheimer's and is declining quickly. The family is thankful for the outside help they have. John and Mary would appreciate prayers for their strength and Jill's as they navigate this difficult road.
- Elijah Smith, Char Urban's son**, who is now in rehab at Envive in Beech Grove, after suffering a stroke. He is now able to eat food 3 meals a day and only tube feeding at night. He is more responsive and trying to say more things. Char is praising God for the progress he is making and for His mercy and grace. She is thankful for all of the visits and encouragement. Her prayer is that he could be home by Christmas.
- John Hawk**, who met with his surgeon about his neck pain and the surgeon is recommending physical therapy, instead of surgery. Please pray the PT will alleviate the pain and help him continue to regain his strength.
- Brian & Shawna Luke**. Brian has body aches and falls frequently due to his cerebral palsy. Shawna has also been falling. They appreciate your prayers.
- Bill and Linda Bramell's son, Patrick**, who is deployed near the Israel/Jordan border. Please pray for his protection and for his wife and two children. Please pray that he would be able to come home for Christmas. He will be deployed for one year.
- Jack Haun's grandson, Brett (31)**, who had a kidney transplant on 10/1. He is home from the hospital. He is now able to drive. Please continue to pray as he recovers.
- Linda Schildt**, who had an ablation, which went well. She is still receiving antibiotic injections and having pain in her back. Please pray that the infection does not come back.
