

Pray for always:

- God's blessing on the President** and all those in leadership in our nation, state and city.
- All members of our staff** as they seek to honor the Lord in their respective ministries.

Missionary focus of the week:

- Shepherd Community Center, serving in Indianapolis, Indiana

New Prayer Requests:

- Sue Smith**, who recently had surgery for lung cancer. Please pray that the very intense nerve pain she is experiencing in her chest following surgery will lessen before her chemo treatments begin.
- Darrell Stevens**, who has relocated to Altenheim Senior Living Facility. He is pleased with the facility. He has some ongoing health problems and would appreciate prayers for him and his doctors as they figure out the problem and a solution.
- Judi Johnson**, who had outpatient surgery on 1/30 and 2/13. She is doing well. Please continue to pray for healing.
- Larry Thompson**, who will be having a heart procedure done in the next few weeks.
- Susan Irwin**, who fell on 1/10 and broke her hip. She had hip replacement surgery 1/12. She is receiving physical therapy at home through March and then will continue at an outpatient center. Please pray that she will regain more strength in her legs so that she can return to driving. Please also pray that she would not get discouraged.
- Hearl Herrod**, who had his last treatment for liver cancer. He will see his doctor 4/13. He will have a PET scan. Please pray that all of the cancer is gone. The crack in his prosthetic eye has also been repaired.

On-going Requests:

- Mary Helm**, who completed her last treatment in November. Her weight is stable and is able to do things around the house. She does have some ongoing swallowing issues due to damage to her esophagus from her treatments. Please pray for her to gain some weight and get her strength back and for a good follow up. Pray also for her husband, John, as he takes care of her.
- Jill Helm**, daughter of John and Mary Helm, who has fast progressing Alzheimer's and is declining quickly. After looking at facilities, her family is choosing to keep her at home. Please pray for John and Mary as they care for her.
- Elijah Smith, Char Urban's son**, who is recovering from a stroke. He has received new orders for 3 different therapists. The speech therapist may have him do another swallow test to see about removing the g tube. They are hopeful he can also get the right wheelchair soon. Please continue to pray for both Elijah and Char to stay strong in God's word and his will. They are thankful for all the prayers. Visitors are welcome!
- Bill and Linda Bramell's son, Patrick**, who is deployed near the Israel/Jordan border. Linda got to speak with him after the recent attacks, but he is very busy working 12 hour shifts. They are thankful to know the Lord is the one in control.
- Linda Schildt**, who is struggling with pain and how to best manage it. She is working to complete the necessary steps for insurance and evaluations so she can be scheduled for a nerve stimulator implant in her neck. Pray for her this week as she is preparing to list and sell her house to move closer to her daughter. She appreciates the calls and prayer.
- Brian Luke**, who has been moved to Southpointe Rehab. He is eating better and doing therapy. They are working with him to stand and walk (with help), and build his strength. Please pray for both Brian and Shawna as they are discouraged with the slow progress he is making, but also grateful for the strides.
