

- Pray for God's blessing on the President and all those in leadership in our nation, state and city
- Pray for all members of our staff as they seek to honor the Lord in their respective roles

Missionary Focus of the Week:
Hope & Care for Little Souls, serving in the Democratic Republic of Congo

New Prayer Requests:

- **John Helm**, who had eye surgery on both eyes. Please pray for a full and uncomplicated recovery.
- **Bob Logsdon**, who was diagnosed with multiple myeloma. His bone marrow biopsy did not show cancer. However, there is cancer in the plasma cells of the bones of the spine, which is much more treatable. Praise! He is doing well and in very little pain. He is not receiving any treatments right now. He has an appointment with his doctor on 9/1 and a CT scan on 9/2. He will also have an MRI and PET scan, pending insurance approval.
- **Jeff Lathrop**, who had surgery for bladder cancer in May. His pain has diminished a little. He finished his first round of treatment. He will have a scope to see if he needs another round. Please pray also for his energy to return.
- **Jerry Fudge**, who had pneumonia which progressed to sepsis. His health is improving but slower than he had hoped. Please pray for him not to get discouraged. They are settling into their new home. Please call the church office for info if you would like to visit them.
- **Mary Zoller**, who was diagnosed with colon cancer. Her recent CT scan indicated no cancer. She had additional labs done and has an appointment to discuss them on 8/13. Her doctor discontinued her chemo, which was causing some serious reactions. Please pray for strength and good lab results. She is grateful for our prayers and good scans!
- **Hearl Herrod**, who was diagnosed with cancer that spread from his eye to his liver. His treatments make him tired and he is unable to sleep. Pray that his liver will tolerate treatment and his tumors will shrink. Pray for peace and strength as they go through this very difficult time.

On-going Requests:

- **Shawna Luke**, who is still having pain in her legs and other parts of her body. Please pray for her pain and for healing.
- **Sue Smith**, is on a new cell therapy pill and has little side effects so far. She is doing well and feeling well with this therapy. She will have another scan in September. Please pray the medication fights the cancer with little to no side effects.
- **Jill Helm**, daughter of John and Mary Helm, who has fast progressing Alzheimer's and is declining quickly. Jill has adjusted well and is thriving at University Heights Health and Living Community; unfortunately she no longer recognizes Mary and John.
- **Elijah Smith, Char Urban's** son, who is recovering from a stroke. His speech is improving, as more people are able to understand him. He has been scheduled for outpatient therapy, beginning 9/4. Please pray that this will be a good step toward more recovery.
- **Brian Luke**, is still at Southpointe Healthcare Center, room 504. He will start PT again in August or September. He is able to move his wheelchair with one foot and go all around the building. He is still depressed and discouraged. He would appreciate visitors from LifePoint if it's convenient.
- **Morgan Harley**, as she faces a long medical journey. Please pray for guidance for Morgan and the family as they consider the recommendations from the doctors, that a clear path will be revealed for treatment.
- **John Hawk**, who is having back pain, trouble walking, and tires easily. He appreciates our prayers.

Pray for those serving in our military: Mark Amos, Patrick Bramell, Stephen Emminger, Jason Kegerreis, Mckinley Key, Chadwick Lewis, Jenny McCreary, Hope (Moore) Robbins, Tim Six, Derek Sutton, Andrew Weick, Calissa Weick
