# BR Startup Solutions Catalog | Brazil @ VivaTech 2026

## 1. ONCO AI

**Sector:** Healthtech | Artificial Intelligence

**Solution:** AI-powered platform for clinical decision support in oncology

**Value Proposition:**

- Enhances diagnostic and treatment accuracy
  - Reduces clinical decision time
  - Enables personalized medicine through data-driven insights
- Differentiator: Scalable AI trained on large clinical datasets, adaptable to global healthcare systems

**Website:** [www.oncoai.com.br](http://www.oncoai.com.br)

## 2. AIPER

**Sector:** Biodegradable pigments for sustainable textile dyeing

AIPER develops biodegradable microbial bio pigments for the textile industry, enabling a more sustainable dyeing process. Its technology converts agro-industrial residues into nutrients for microbial fermentation, allowing microorganisms to produce natural pigments.

The solution reduces water and energy consumption by up to 60%, while being applicable to different types of fabrics and contributing to lower production costs. AIPER's approach supports a more efficient and environmentally responsible textile industry.

**Website:** [www.aiper.com.br](http://www.aiper.com.br)

## 3. BIOLINKER

**Sector:** Biotech | DeepTech

**Solution:** Platform for biological and molecular data integration and analysis

**Value Proposition:**

- Accelerates scientific research and drug development

- Facilitates discovery of new therapies
- Integrates lab and clinical data  
**Differentiator:** Combines biotechnology with data intelligence to unlock innovation

**Website:** [www.biolinker.tech](http://www.biolinker.tech)

#### 4. WOOD CHAT

**Sector:** Sustainability | Climate Tech

**Solution:** Digital platform for traceability and management of forest assets

**Value Proposition:**

- Ensures transparency in timber and carbon value chains
- Supports ESG compliance
- Enables real-time monitoring  
**Differentiator:** Bridges technology and sustainability for regulated global markets

**Website:** [www.woodchat.com.br](http://www.woodchat.com.br)

#### 5. JUST TRAVEL

**Sector:** Traveltech

**Solution:** Smart platform for travel planning and management

**Value Proposition:**

- Personalized travel experiences
- Cost and route optimization
- Integration with global travel services  
**Differentiator:** Data-driven personalization powered by AI

**Website:** [www.justtravel.com](http://www.justtravel.com)

#### 6. Draiven

**Sector:** AI | Data Analytics | Industry 4.0

**Solution:** Data-driven platform for predictive analytics and decision intelligence

**UVP:**

- Transforms data into real-time strategic insights

- Enables predictive decision-making for operations and business
  - Improves efficiency and performance through advanced analytics
- Differentiation Note (implicit): Strong positioning in data-driven industry transformation, bridging AI and operational intelligence

**Website:** [www.draiven.io](http://www.draiven.io)

## 7. BotBot

**Sector:** AI | Conversational AI | Customer Experience

**Solution:** BotBrain: An AI-powered platform that enables teleoperation and autonomy for legged robots (quadrupeds and humanoids), designed for demanding industrial environments across agribusiness, logistics, construction, and mining.

**UVP:**

- Combines hardware and AI software in a vertically integrated robotics platform;
- Operates in GPS-denied, unstructured, and high-risk environments where human presence is costly or dangerous;
- Reduces operational costs and increases safety through autonomous task execution;
- Scalable architecture adaptable across multiple industrial verticals.

**Website:** [BotBot - One Brain, Any Bot](#)

## 8. SoftExpert

**Sector:** Software / Digital Transformation & Business Management

**Solution:** All-in-one business management platform (SoftExpert Suite) for digital transformation, integrating process management, quality, risk, compliance, documents, and performance in a single environment.

**UVP:**

- All-in-one platform: Centralize processes, documents, risks, and performance in a single, fully integrated solution, eliminating disconnected systems.
- Operational excellence & compliance: Automate workflows, ensure audit readiness, and meet global regulatory standards with traceability and control.

- Productivity powered by AI: Improve efficiency, collaboration, and decision-making with automation, real-time analytics, and AI-driven insights.

**Website:** [www.softexpert.com](http://www.softexpert.com)

## 9. Diagnext

**Sector:** Healthtech | Diagnostics | AI

**Solution:** Advanced diagnostic platform leveraging AI and data analytics to improve clinical outcomes

**UVP:**

- Accelerates and improves diagnostic accuracy
- Supports early detection and clinical decision-making
- Integrates data for more efficient and precise healthcare delivery

**Website:** [www.diagnext.com](http://www.diagnext.com)

## 10. OTMSuite

**Sector:** DevOps

**Solution:** Low-code development platform to connect people, process and technology in real time

**Value Proposition:**

- Personalized application
- Business activity monitoring and automation - BAM
- Integrate multiple sources (ERPs, spreadsheets, APIs, sensors)
- Use AI where it really matters

**Differentiator:** Govern data, standards, and access in a unique environment

**Website:** [www.otmsuite.com](http://www.otmsuite.com)

## 11. Raquel Menopause App

**Sector:** Femtech | Digital Health

**Solution:** Digital platform supporting women through menopause with

personalized health insights and care tools

**UVP:**

- Provides personalized guidance and symptom management
- Empowers women with data-driven health insights
- Addresses an underserved and growing global health segment

**Website:** <https://www.raquelmepausa.com/raquel-menopause-english/>

## 12. Endelevo Efficient Facades

**Sector:** Smart building & sustainable urban infrastructure

**Solution:** We are a Brazilian indtech creating energy-positive, nature-based solutions for buildings and urban spaces. Endelevo develops integrated sustainable technologies including facade retrofit systems, sustainable urban furniture, and Oasis — Endelevo’s self-irrigating vertical garden.

**UVP :** Our solutions combine energy efficiency, renewable generation, and biophilic design to transform buildings and cities into regenerative, climate-resilient environments. From energy-generating facade retrofits to eco-friendly urban infrastructure and plug-and play indoor green systems, Endelevo bridges innovation, sustainability, and architectural performance.

**Website:** [www.endelevo.com](http://www.endelevo.com)

## 13. Aimirim

**Sector:** Smart laboratory & industrial process optimization

**Description:** Founded by researchers, Aimirim is an industrial technology company with engineering DNA, dedicated to solving the complex challenges of modern manufacturing. We go beyond software by designing the data infrastructure that powers true Industry 4.0. Therefore our specialty is building bridges between Operational Technology (OT) and Information Technology (IT) to turn raw data into actionable business intelligence.

**Website:** <https://lp.aimirimsti.com.br>

## 14. S&L Energia

**Sector:** Energy | Energy Transition

**Solution:** Energy efficiency and consumption management solutions

**Value Proposition:**

- Reduces energy costs
- Optimizes industrial consumption
- Supports decarbonization strategies

**Differentiator:** Practical applications for industry and infrastructure

**Website:** [Instagram](#)

### 15. YBY Collective

**Sector:** Climate Tech / Circular Economy / Traceability Infrastructure

**Solution:** SaaS platform for traceability, certification and impact measurement in the recycled precious metals supply chain, with a marketplace designed to connect key players in the circular metals ecosystem

**Value Proposition:**

- Transparency and traceability for recycled gold and silver
- Impact measurement and responsible sourcing infrastructure
- Connection between refiners, brands, laboratories and industry stakeholders
- Marketplace integration for sourcing, collaboration and circular supply chain opportunities
- Support for ESG compliance and circular economy strategies

**Differentiator:** Integrated SaaS ecosystem combining traceability, impact intelligence and marketplace infrastructure for the recycled precious metals industry.
