Calling all 8-bit nostalgia nerds! If you enjoy pushing pixels up, down, left, or right to avoid those colorful ghosts down at the local arcade you're going to love this font! Kyoshi features eight different pixel styles that include classics like squares and dots but also unique styles like hearts and knits. All of these pixel styles are available in a full-color version featuring a gradient across each letter that has a fully customizable palette. Play around with the default gamer-girl pastel, or choose your own!
