

**IMECE INDIA  
2025**

10-13 September | Hyderabad

ASME's International Mechanical Engineering Congress & Exposition (IMECE) is a premier event where leaders from academia, industry, and government share insights and drive innovation in engineering.

IMECE INDIA 2025 will take place for the first time in India, bringing together academia, industry, national research labs, and government bodies to foster collaboration. Curated by engineering leaders, it facilitates knowledge-sharing on cutting-edge advancements in mechanical engineering.

**As Congress Chair of ASME IMECE India 2025, I welcome you to this historic event, marking IMECE's first edition in India. This conference will bring together global experts to explore advancements in Sustainability, Innovation, and Inclusivity, addressing key challenges in technology, AI, sustainable design, and the role of mechanical engineering in solving global issues.**

**— Dr. K. Subramanian,**  
Congress Chair, ASME IMECE India 2025  
& Senior Vice President, Ashok Leyland
