

Learning without limits

Robust and valuable access to the most comprehensive CE library in healthcare

As the leader in learning, we know continuing education is more than just mandatory training. In most instances, it's one of the primary paths to remaining current on advancements in care and professional development. With access to 2,000+ multidisciplinary courses, 40+ specialty certification prep resources, and a complimentary mobile app, CE Unlimited enables you to simplify onboarding, cross-train staff efficiently, and improve your retention

strategy by offering a path for employees to access continuing education resources. Additionally, CE Unlimited removes the burden of complex licensure standards by automatically tracking and reporting earned CE credits to designated boards of nursing. The key to improved clinical competence, enhanced workforce engagement, and higher clinician retention rates is CE Unlimited.

Access unlimited learning for every clinician:

CE Unlimited provides substantial ROI by offering a single, easy-to-use solution featuring 2,000+ CE courses and 40+ certification preparation resources to satisfy professional licensure requirements and promote professional development initiatives. The ever-growing library includes a wide range of topics to support nursing, advanced practice nursing, and allied health professions.

Challenge Tracks

CE Unlimited helps power and support:

- ✓ Professional development and career advancement programs
- ✓ Professional licensure requirements
- ✓ Specialty certification preparation and maintenance
- ✓ Recruitment and retention programs
- ✓ Orientation programs
- ✓ Quality and safety measures
- ✓ Leadership development
- ✓ Various ANCC and Magnet programs

Flexible learning, anytime and anywhere

CE Unlimited is available 24/7 through both desktop and mobile, allowing clinicians to learn at their own pace and schedule. With the complimentary CertPrep app available through the Apple App Store and Google Play, learners can access prep resources on-the-go.

Co-developed with industry-recognized experts

We've partnered with leading organizations to offer premium content across many different specialties and settings to ensure your team always has access to the latest evidence. Featuring content from partners such as Adventhealth University (FKA Echelon), Home Care Pulse, EBSCO Health, and ALEA.

Automated CE reporting and tracking

As a leader, effortlessly track learning engagement and completions of your clinical staff through one platform. As a learner, CE Unlimited saves you valuable time by automatically reporting your completed CE credits to the designated licensing boards.
