All Elire Services

Elire's Consulting Services deliver success for our clients by efficiently implementing, upgrading, and integrating enterprise HR, Finance, EPM, and Supply Chain software investments. We use Elire's proven methodologies, processes, and procedures to solve IT and Business Process problems, ensuring the work is done right the first time. Elire connects the People, Processes, and Systems your organization needs to run smoothly.

Why Choose Elire?

Established in 2005, Elire's nineteen years of experience is focused on six main product areas: Oracle Cloud, PeopleSoft, EPM and Analytics, Treasury, Advisory Services, and Managed Services. Our mission: to be your Trusted Advisor. We fulfill this promise by efficiently implementing, integrating, upgrading, and optimizing your software investments and business processes.

Elire's 300+ clients span the public and private sectors, including niche expertise in Financial Services, Utilities, Government Laboratories, Healthcare, Education, and Professional Services. Unlock your software potential and empower your workforce with Elire.

PeopleSoft Services

Leverage a proven PeopleSoft partner for your 9.2 upgrade, implementation, or optimization to enhance your PeopleSoft investment.

PeopleSoft Path to Cloud

Understand where your organization is today and make iterative improvements to fully utilize your PeopleSoft application and put plans in place to ensure your move to cloud is successful in the future.

Cloud Enterprise Services

Leverage Oracle Cloud's leading infrastructure, technology, business applications, and information toolset with Elire's Oracle Cloud ERP/HCM/SCM Consulting Services.

EPM and Analytics

Elevate productivity and boost data accuracy and consistency with Elire's On-Premise and Cloud EPM and Analytics Services.

Treasury Services

Nobody knows Treasury better than Elire – let us help your organization keep up with today's constantly changing Treasury world.

Management Advisory Services

Unlock the potential of your software investments and empower your workforce.

Managed Services

Minimize cost and maximize quality for your application support.
