Elire Application Roadmap

Overwhelmed and Unsure of Where to Start with Your IT Investments?

Leverage Elire's deep business process expertise to help you make one of the most difficult decisions your company is going to face over the next few years - What should the future of your existing technology investment look like? Elire Consultants average 20 years of industry experience with over 300 clients in the public and private sectors.

Elire uses leading experts in Finance, Supply Chain, and HR operations to help companies make informed decisions about moving from their on-premise ERP, SCM, and HCM Application to Cloud Solutions. Elire will use our knowledge, methodologies, and tools to help you sift through all the confusion to determine your organization's best path forward.

We know On-Premise. We know the Cloud. We know business process best practices.

Mobilize

Next Steps

- Final Recommendation & Roadmap
- Implementation Support

Elire's Application Roadmap Methodology is five-step approach to identifying and analyzing client's core business processes by module, evaluating potential solutions, and providing recommendations based on key decision criteria for the future state of your IT investments. This process includes:

- Identification of strategic drivers beyond requirements which may impact future application selection
- Collaborative discovery sessions with Business, Functional, and Technical owners
- Development, validation, and prioritization of robust requirements, business process needs, pain points (Disconnects), and technical development (RICEW) items
