# ERP Treasury Implementation Services

Corporate Treasury Organizations (CTOs) must innovate with a focus on transparency, seamless automation, and data-driven decisions. The traditional Treasury cornerstones of cash and liquidity management have expanded into **financial innovation, strategic decision making, regulatory compliance, and risk mitigation.**

ORACLE | Partner | **kyriba**<sup>®</sup>

**Maximize ROI** on your existing investment in **Oracle PeopleSoft Financials** by adding **Cash Management** via the expert advisory of Elire Implementation Services. This application integrates seamlessly with the modules you already own (GL, AP, EX, AR) and **enables world-class features** such as In-house Banking and FX Netting.

## Service Offerings

- Implementation of Oracle PeopleSoft, E-Business Suite, or Cloud Treasury Applications
- **Enhanced Apps** - to tailor non-delivered functionality to your organization
- **Enhanced Integrations** - to setup your current connections with third party vendors
- **PeopleSoft in the Cloud** - moving your catered PeopleSoft instance to Oracle Cloud to take advantage of the maintenance and cost saving benefits of a cloud solution, without losing your custom PeopleSoft Application
