Managed Services Support for PeopleSoft:

Bridging Today and Tomorrow

Elire Helps You Navigate Attrition, Retirement, and Your Journey to Oracle Cloud

Many organizations running PeopleSoft are facing a critical reality:

- A seasoned workforce with decades of specialized PeopleSoft knowledge
- Increasing attrition and retirements that creates gaps in critical support roles
- Rising difficulty in hiring and retaining skilled PeopleSoft talent
- A looming need to plan and execute a smooth transition to modern Oracle Cloud HCM, ERP, and EPM applications

Elire Provides the Solution with Managed Services Support

Stabilize Your Current PeopleSoft Environment

- 24/7 application monitoring and incident resolution
- Preventive maintenance to maximize uptime and performance

Bridge the Talent Gap

- Access to a dedicated pool of senior PeopleSoft experts without the challenges of recruitment
- Continuity of knowledge with documented processes, runbooks, and cross-training
- Flexible resourcing to scale with your needs

Plan and Execute a Smooth Oracle Cloud Transition

- Assessment of your current PeopleSoft environment and business processes
- Identification of opportunities for process optimization before migration
- Cloud-readiness roadmap aligned with your budget, timeline, and strategic goals
- Post-migration support to ensure adoption and business continuity

Why Partner With Us?

Elire's certified Oracle Cloud and PeopleSoft experts work with you across platforms. Our flexible support model is tailored to your timeline, budget, and migration approach.
