

# OORT **Deimos II** Product Introduction

# About Deimos

A Depin Network Powering OORT DataHub

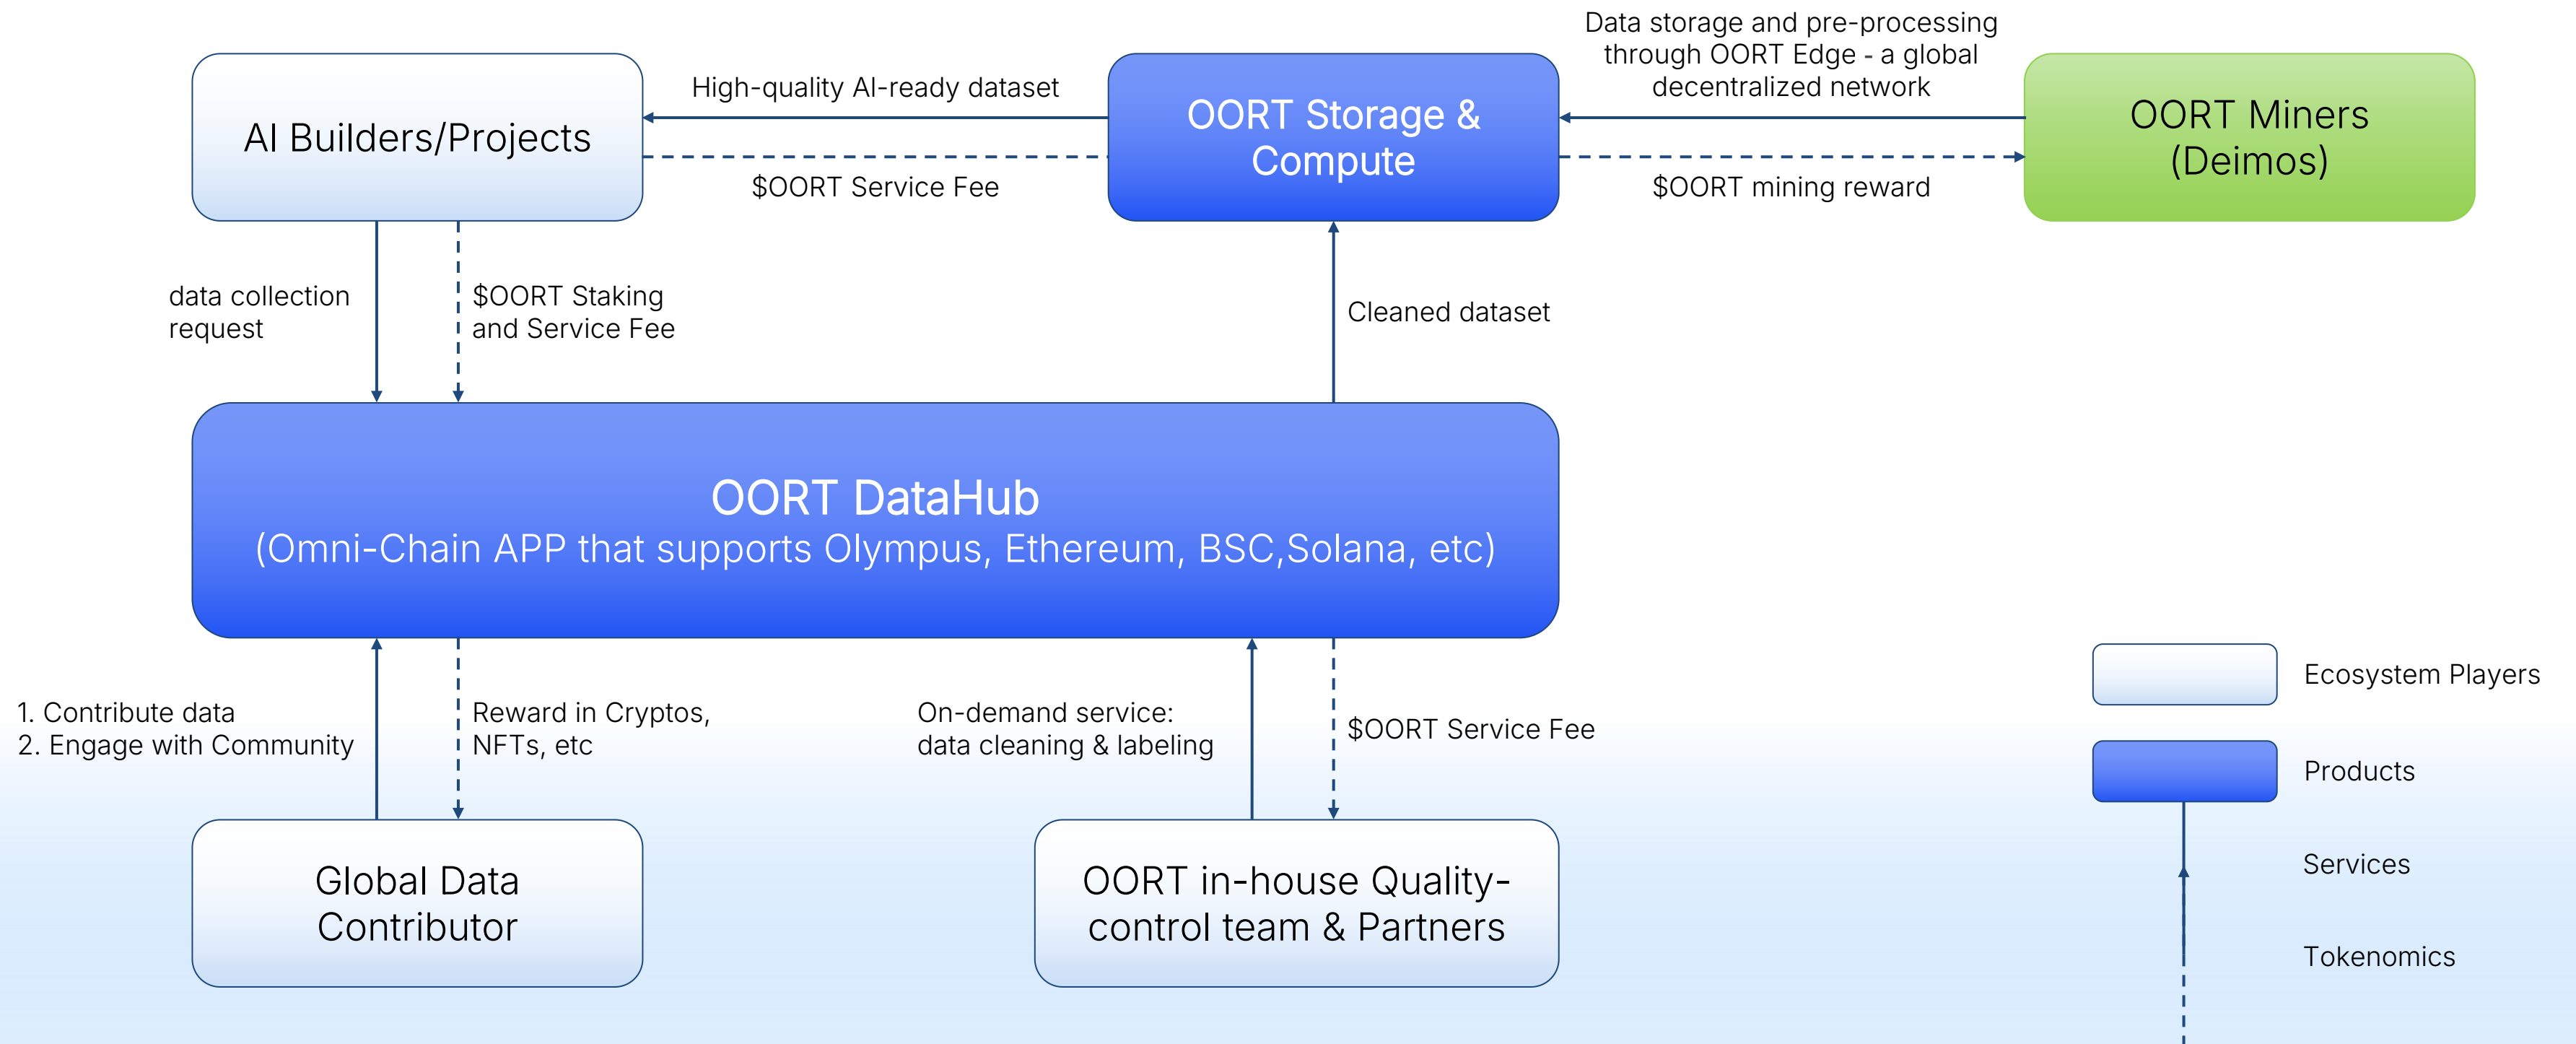

Deimos is the edge node device at the heart of the OORT Edge network.

Compact and designed for household use, each Deimos device offers storage or computing capabilities. Participants can [earn rewards](#) by contributing storage or compute power, supporting the OORT DataHub ecosystems.

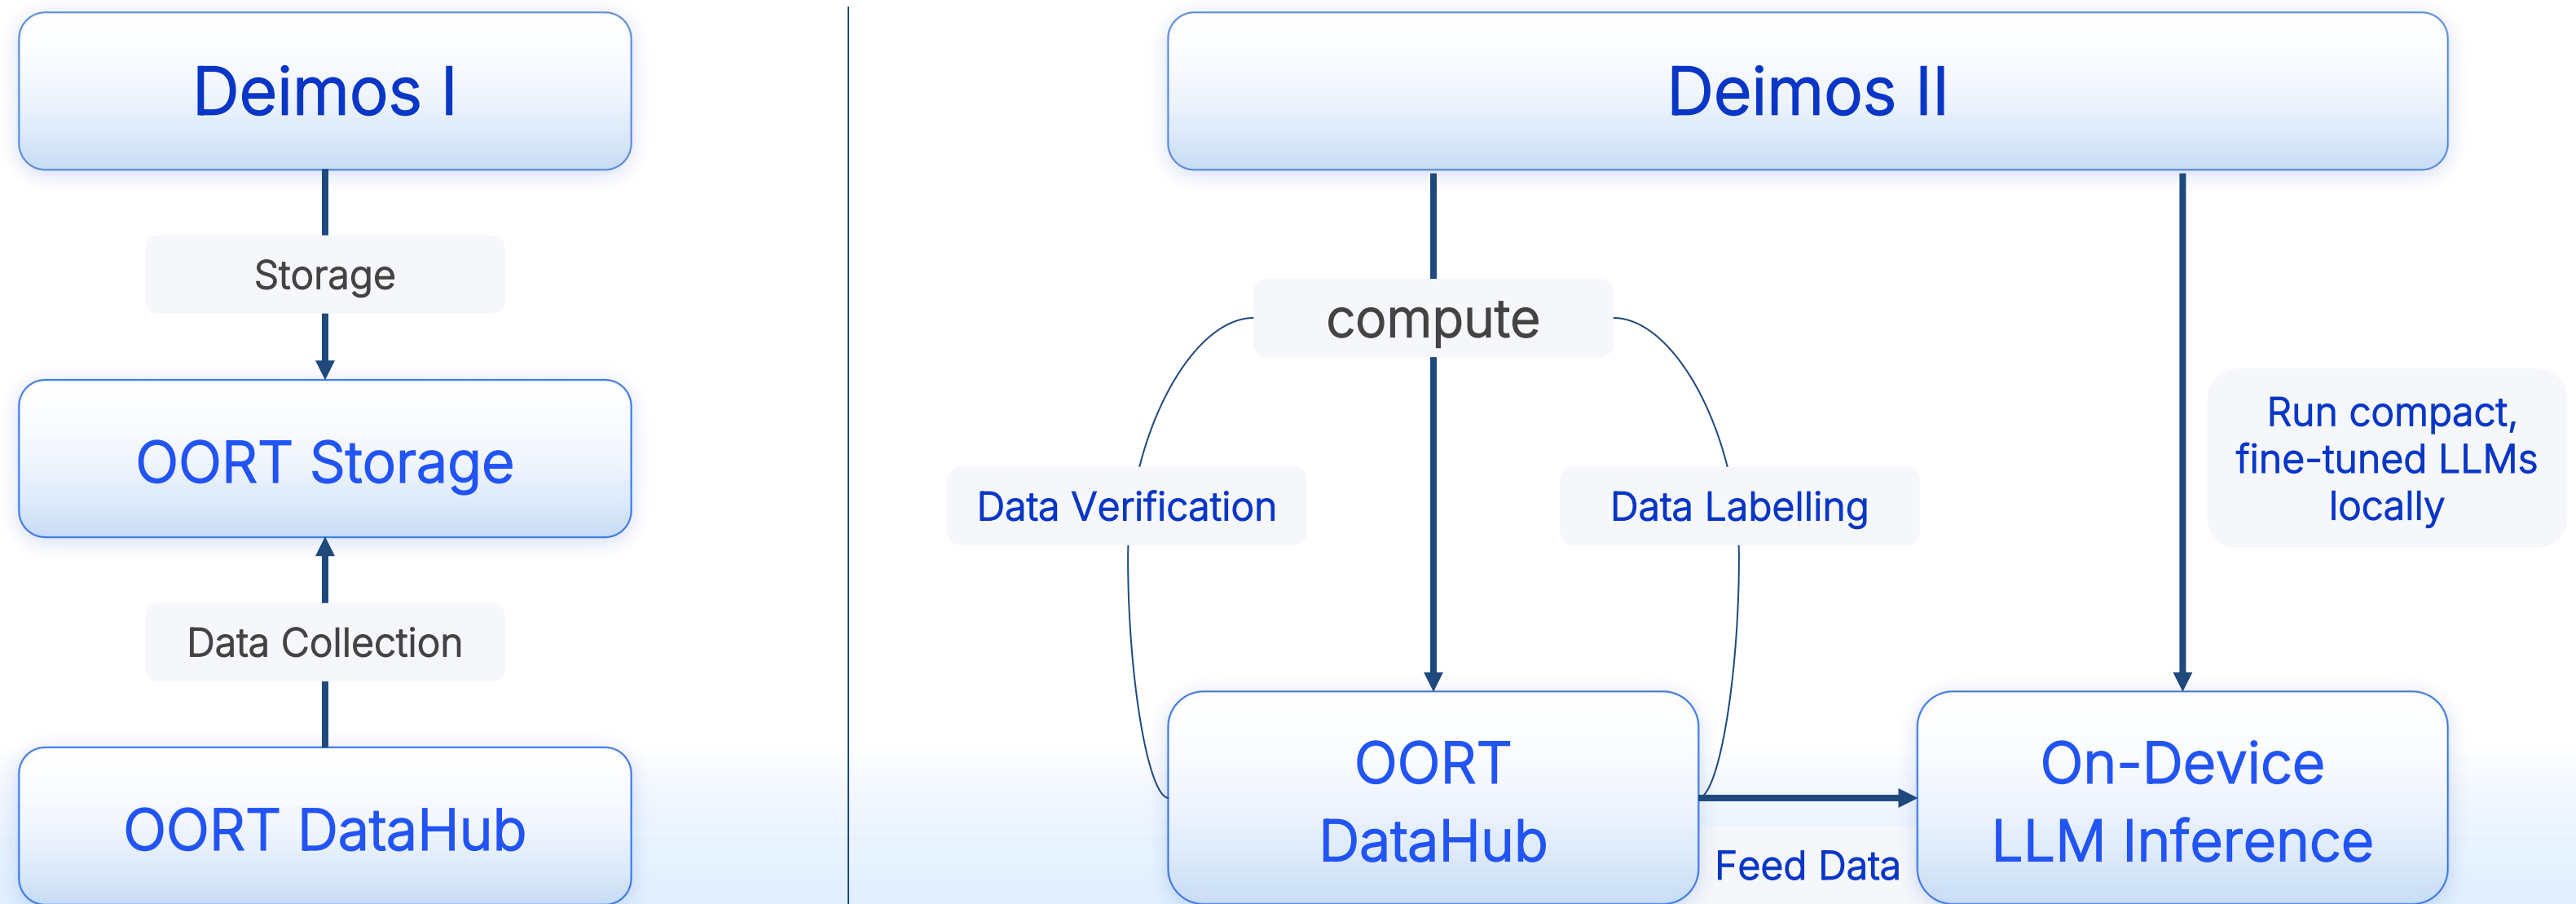

# The Role of Deimos in the OORT Ecosystem

Globally Trusted Data, Power Tomorrow's AI

# From Deimos I to Deimos II

## Edge AI Meets Decentralized Data Workflows

# Deimos II: Gateway to DeAI Infrastructure

Deimos II is the hardware that brings compute to the edge

— think mini data centers running in your home, office, or school.

# Deimos II: Gateway to DeAI Infrastructure

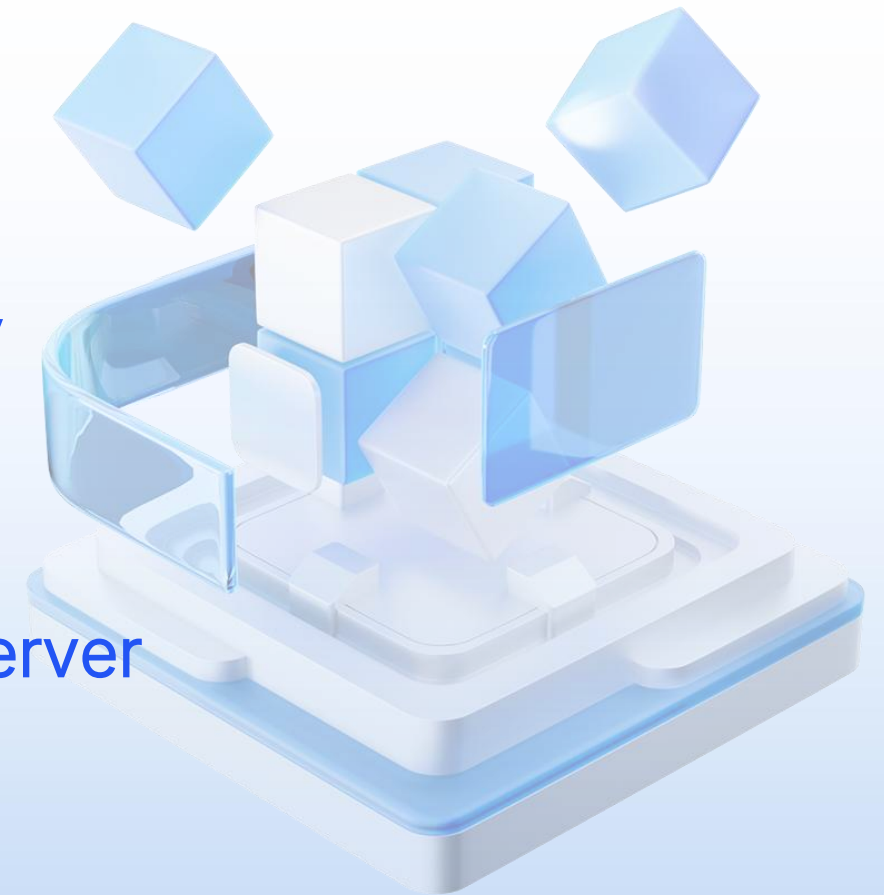

## On-Device Large Language Model (LLM) Inference

Enabling responsive, low-latency inference for edge applications without compromising privacy.

Deimos II

- Runs compact, fine-tuned LLMs locally
- Ensures low latency + high privacy
- Transforms each node into a mini-AI server

# Deimos II in Action: Real-World Use Cases

## Local Intelligence for a Global AI Engine

OORT + Deimos II = a decentralized AI engine that's always learning, always verifying, and always growing—from the edge outward.

On-Device Annotation  
and Verification for AI  
Dataset Quality

Community Data Nodes  
for Continuous Edge  
Contribution

Domain-Specific Data  
Capture and Real-Time  
Labeling

Decentralized Synthetic  
Data Validation & Local  
Generation

# OORT Deimos II Machine Parameters

## Product Specifications and Configuration

**Power consumption**  
50W

**Size**  
105 x 119 x 220 mm

**Package Size**  
335 x 200 x 137 mm

**Power Supply**  
60W adapter

**CPU**  
I5-12450h/1240P

**Memory**  
16G DDR4

**Solid State Drive (SSD)**  
128GB M.2

**Operating System**  
Linux

**Net Weight / Gross Weight**  
2.0KG / 2.68KG

# Maximize Your Rewards with Deimos II

## Simple Setup, Global Impact, Big Rewards

The Ultimate Home Computing Device for AI, Data Processing, and Rewards

Stake amount **6,000** \$OORT

Stake period **360** days

Output **34.5** \$OORT per day

reward **13,020** \$OORT per year

- **Simple Setup:**

Get started quickly and easily, no technical expertise required.

- **Unique Opportunity:**

Help shape a global DeAI infrastructure like no other.

- **Cost-Efficient:**

Maximize value with minimal investment.

# Comparison of Output between Deimos I and Deimos II

|           | Stake amount | Stake period | Output per day | Daily Rewards | Reward Period | Total Output |
|-----------|--------------|--------------|----------------|---------------|---------------|--------------|
| Deimos I  | 500 \$oort   | 360 days     | 2.875 \$oort   | 1.64 \$oort   | 365 days      | 1635 \$oort  |
| Deimos II | 6000 \$oort  | 360 days     | 34.5 \$oort    | 1.64 \$oort   | 365 days      | 13020 \$oort |

1、 25% immediate release, 75% linear release in 270 days.

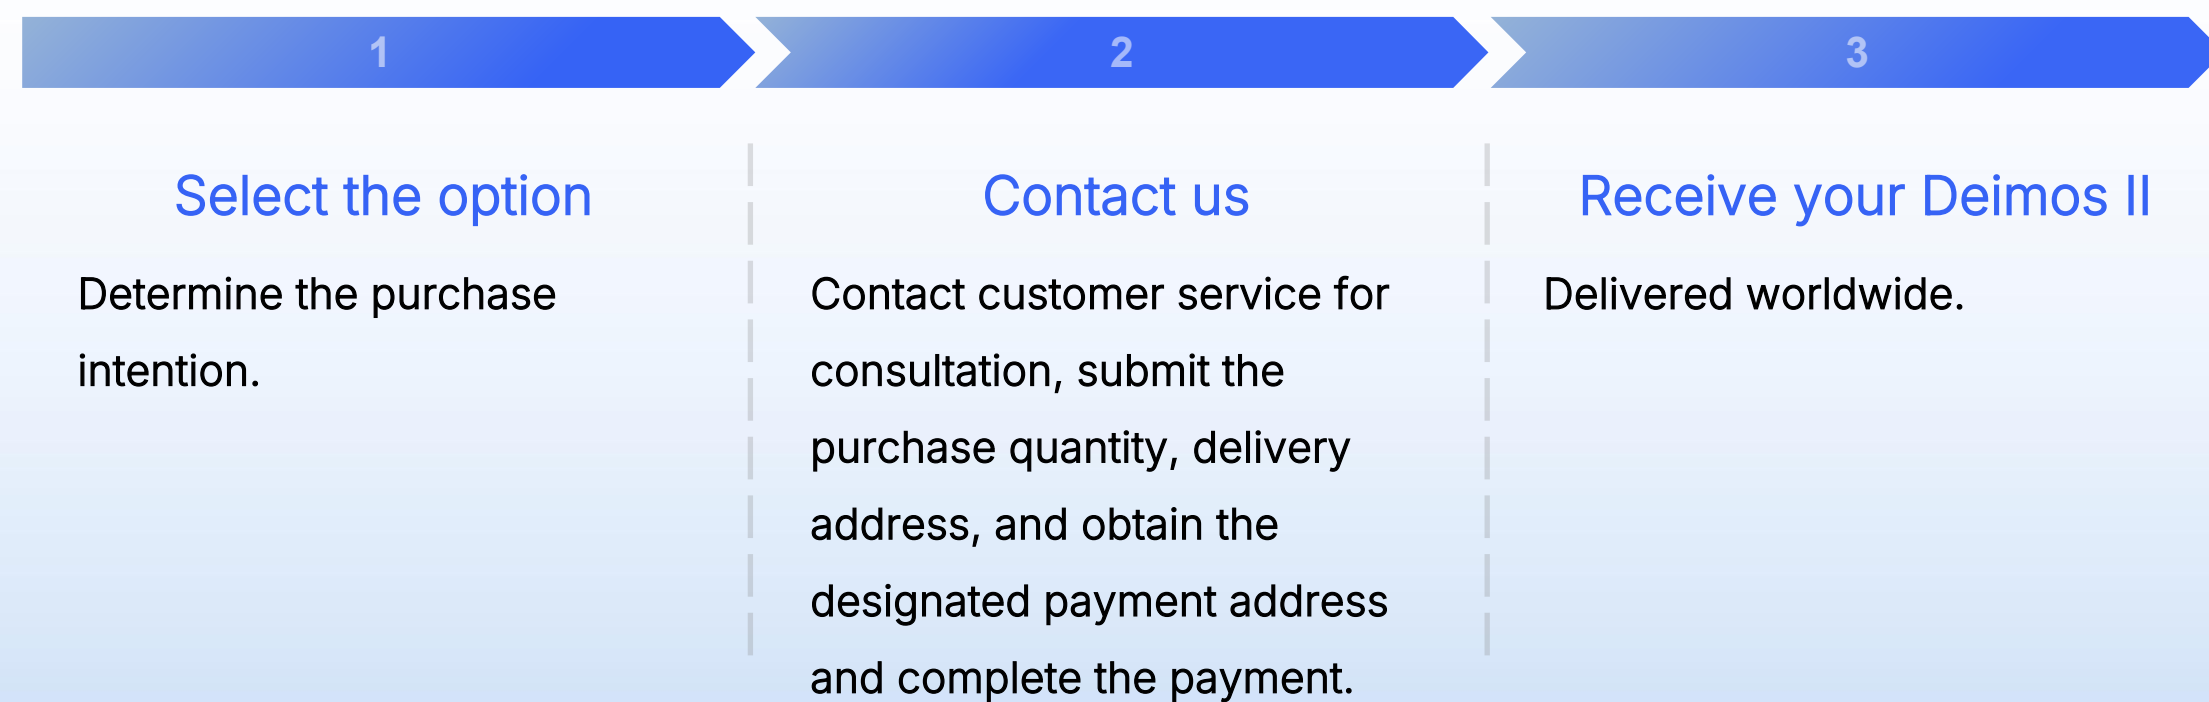

2、 Explanation of Rewards:

2.1、 OORT Official rewards, additional rewards will be given for the initial 60,000 devices online.

2.2、 China (including Hong Kong and Macau), 1.64 \$oort per day, reward period of 365 days;

Outside of China (including Hong Kong and Macau), the first 30,000 machines online will receive 2.46 \$oort per day, reward period of 365 days. After the 30,000 quota is filled, can continue to enjoy the same incentive quota as China (including Hong Kong and Macau).

# About Depintech

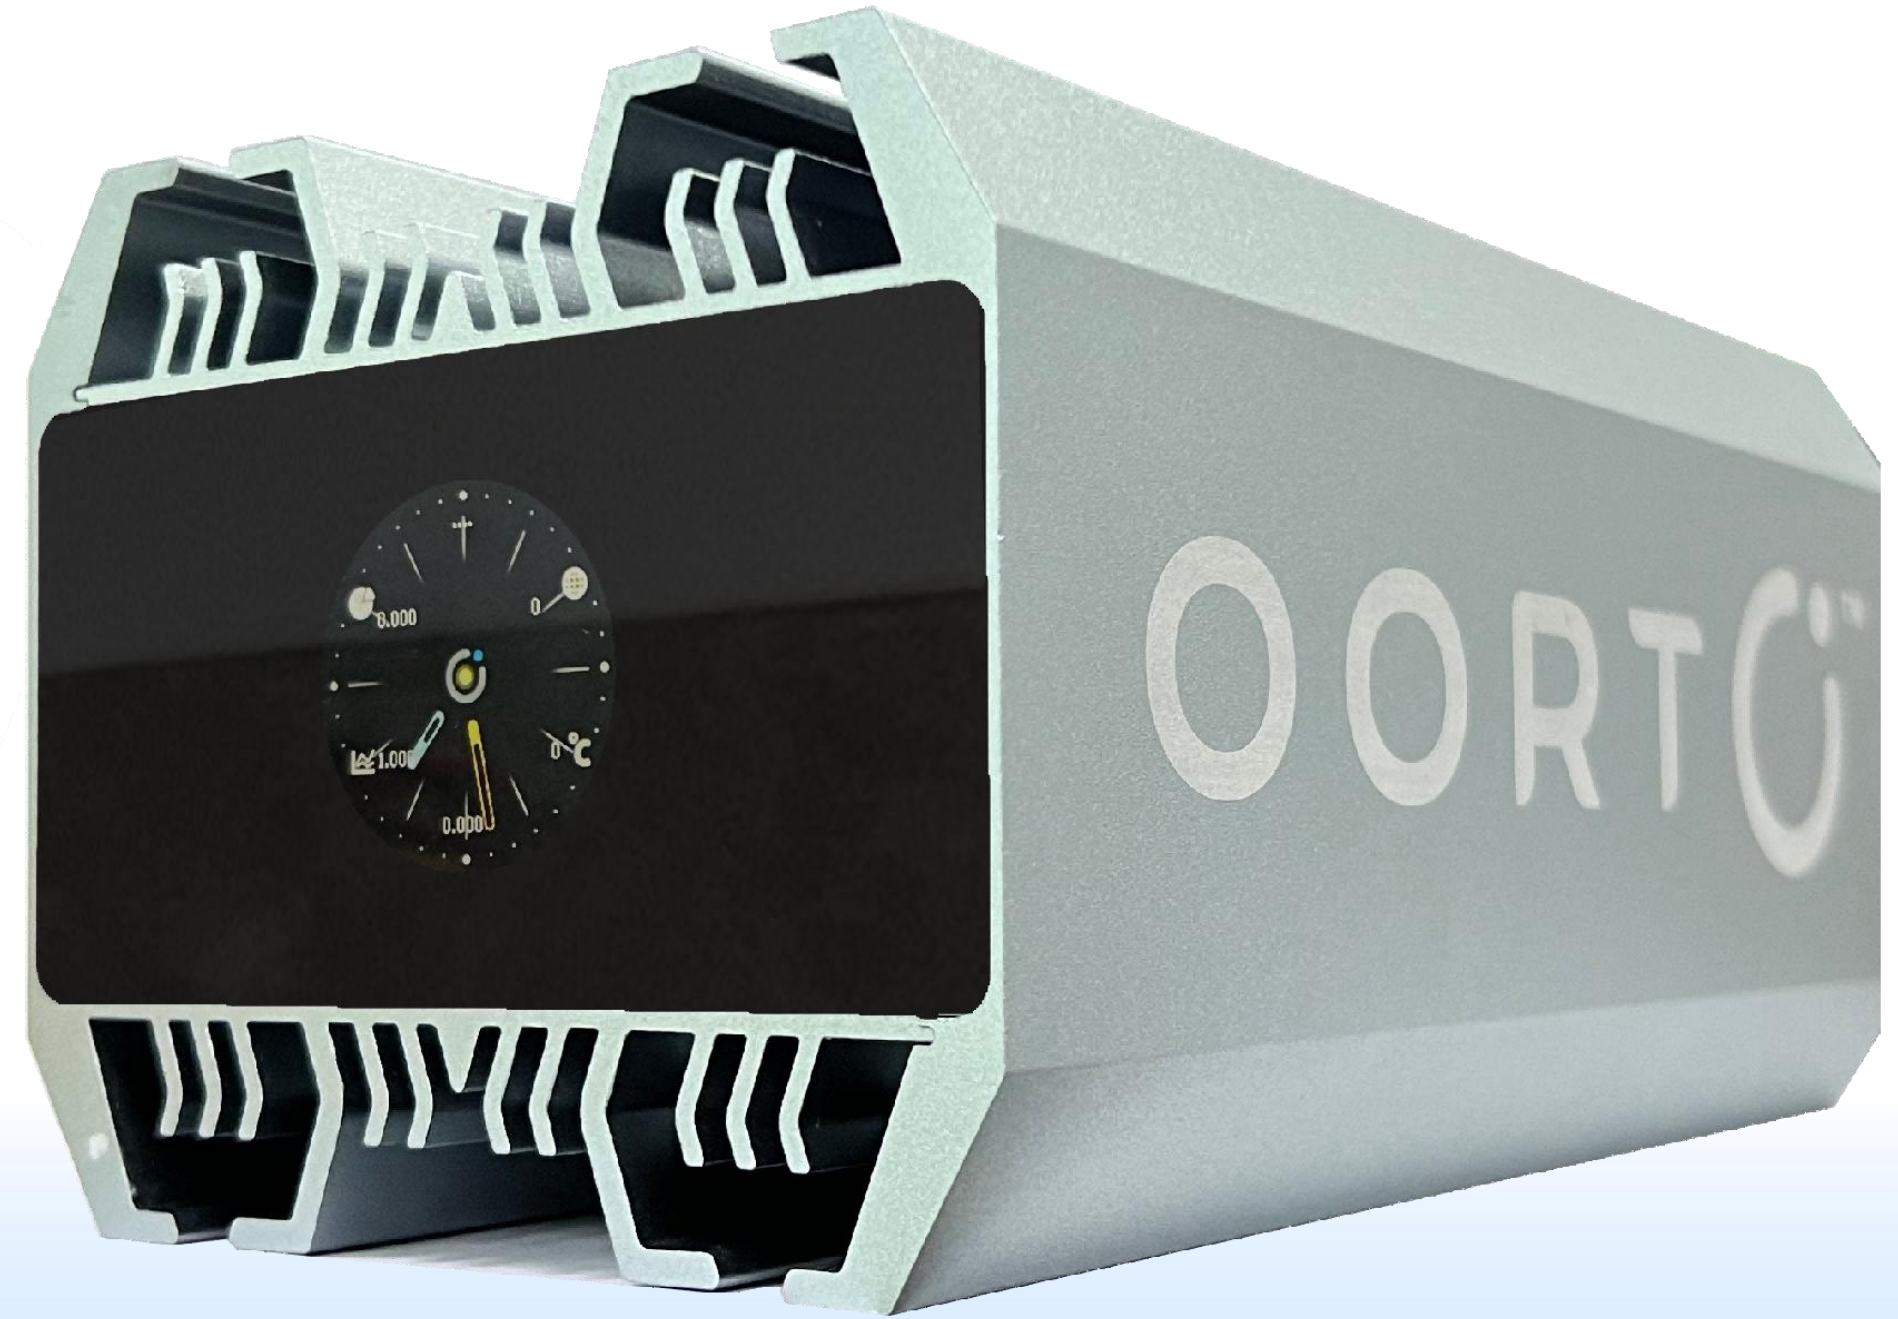

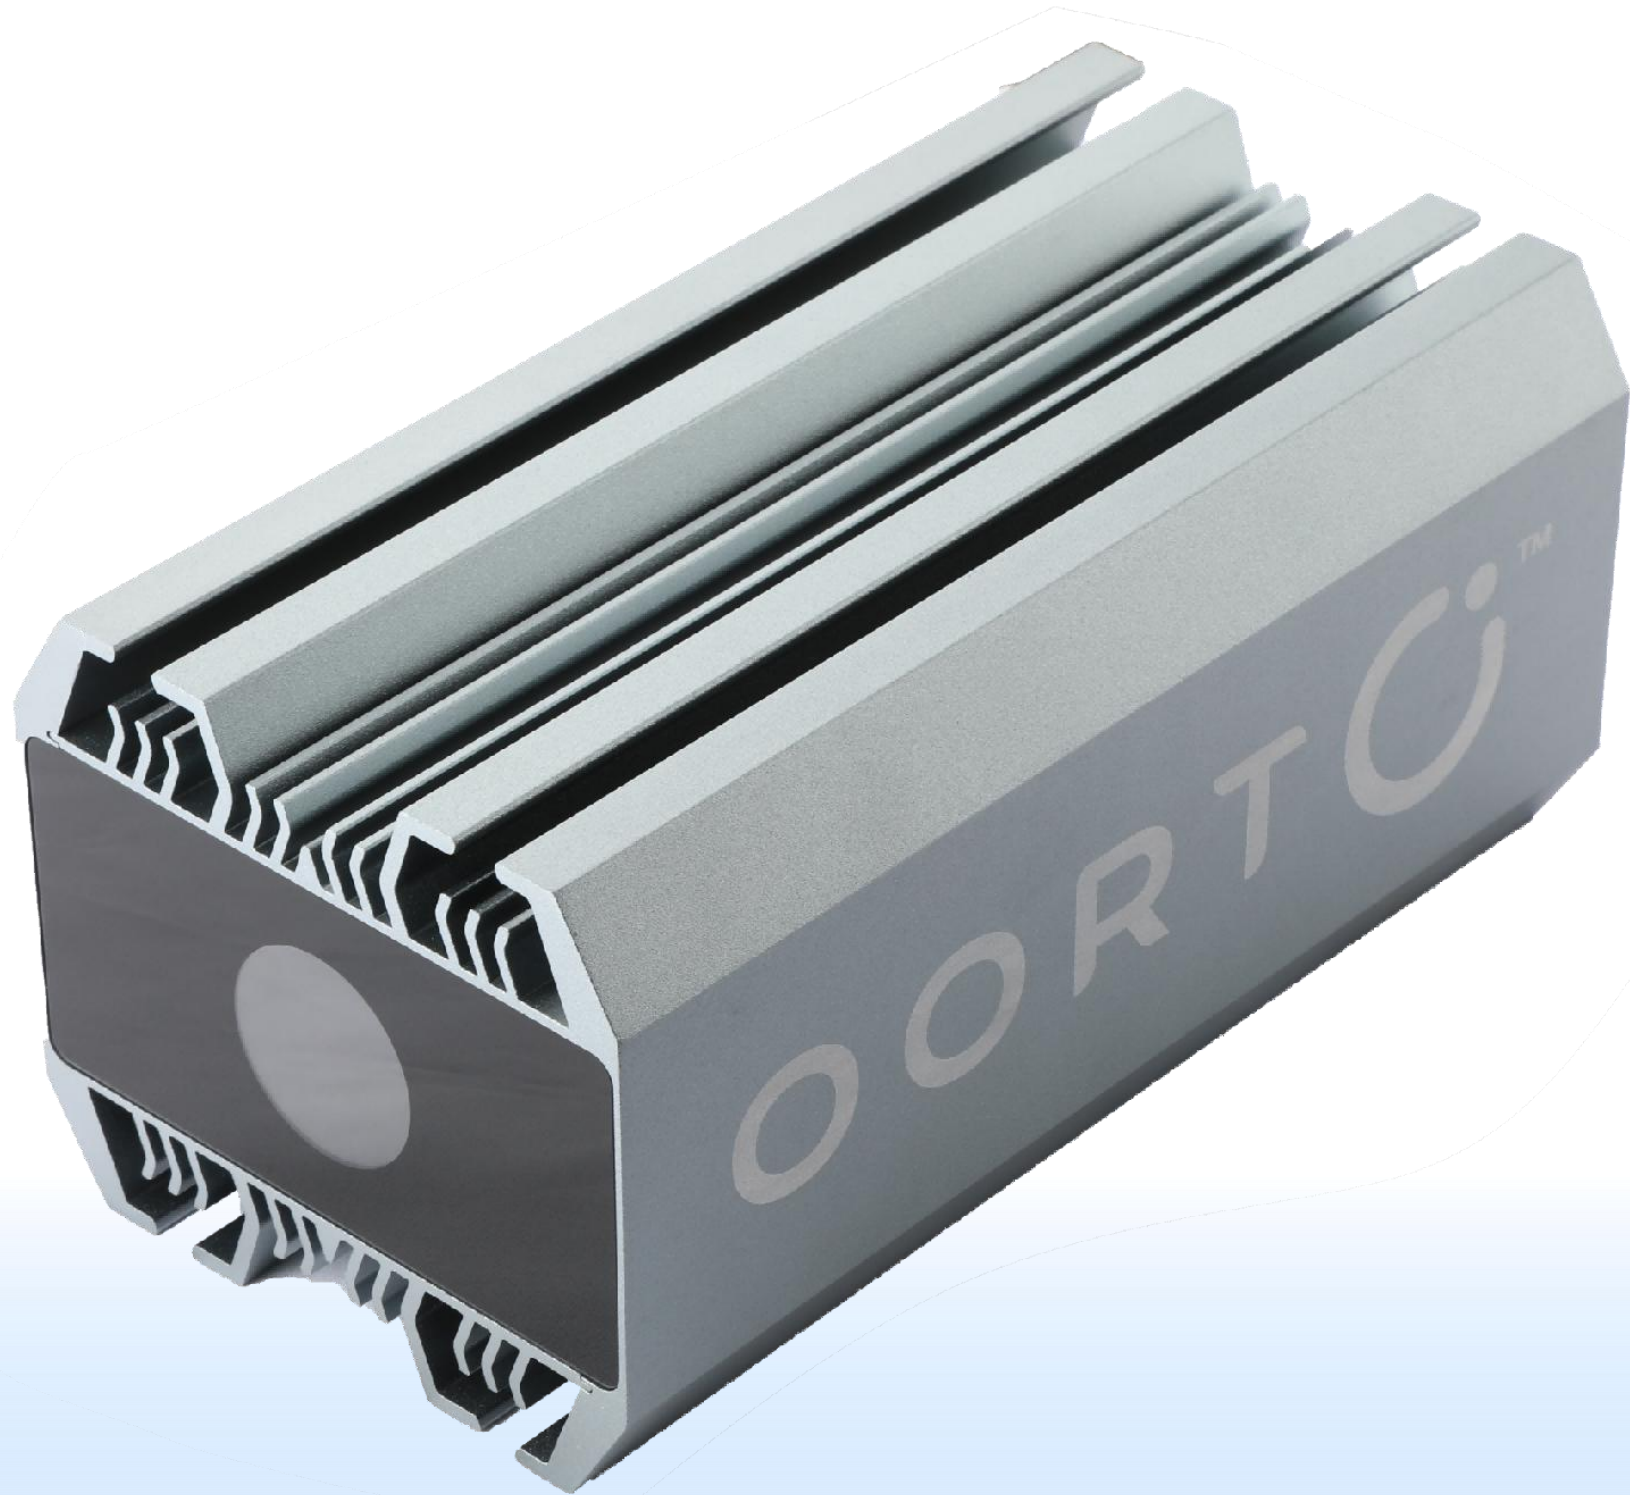

## ABOUT DEPINTECH

**DepinTech** is a blockchain hardware service team founded in Hong Kong, with years of experience in decentralized hardware research, development, production, sales, and maintenance. The team believes in the spirit of decentralization.

God, dedicated to collaborating with various high-quality blockchain ecosystem organizations to jointly promote the continuous development of the blockchain hardware industry.
