WHAT'S CONSIDERED AN ELECTRIC VEHICLE?

An electric vehicle (EV), also referred to as a battery electric vehicle (BEV), is a vehicle which uses a battery source to power one or more electric motors for propulsion. **(Other alternative fuel vehicles including (HICEV), (FCV), (FCEV), and plug-in hybrids, are not eligible for coverage under this program.)**

This is a general outline of coverage for marketing purposes only. Actual terms and conditions may vary by state. All Apex EV (Electric Vehicle) Protection Plans are administered exclusively by EDS LLC. Coverage, deductibles, and claims payment vary depending on vehicle age, mileage, preexisting conditions and plan purchased. Routine maintenance is required at your expense along with repairs not covered by your contract. Deductible may apply.
