

# THREAT HUNTING SERVICE

Unleashing Cyber Resilience, One Hunt at a Time!

COGNNA stands as a global leader in cybersecurity, empowering customers to thrive by safeguarding against cyber threats with effectiveness, speed, and simplicity. The Misson of COGNNA Nexus is to defeat today's threats to protect tomorrow's future of humanity.

At **COGNNA**, Threat Hunting goes beyond just a service; it's a dedication to empowering organizations with the tools to proactively identify and combat advanced threats in their IT environment. This service, powered by threat detection systems and our Guardians, aims to detect and respond to potential threats before they cause significant damage. COGNNA Threat Hunting improves an organization's security posture by staying ahead of rapidly evolving threats.

#### Discover

Identifies and prioritizes digital assets, risks, and vulnerabilities to enhance situational awareness and threat detection.

#### **Detect**

Centralizes cybersecurity logs and signals to uncover advanced and stealthy threats, including comprehensive compro-

#### **Investigate**

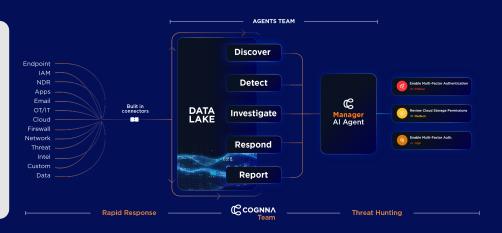

Provides accelerated threat analysis and root cause identification through proactive threat hunting and premium

#### Respond

Enables swift threat containment and live response actions across the environment, supported by actionable incident

#### PLATFORM OVERVIEW

From asset identification to threat detection and rapid response to c ompliance assurance, COGNNA provides comprehensive detection against sophisticated cyber-attacks through an Al-driven threat management platform. Our innovative technology integrates human intuition and experience with advanced machine intelligence to detect, analyze and respond to threats in real-time.

#### **PLATFORM FEATURES**

#### **USE CASES**

Employing advanced algorithms and machine learning, COGNNA provides robust security across endpoints, networks, clouds, and behav-

#### **SOC AUTOMATION**

Streamlining security operations and log management.

## Leveraging advanced AI and machine learning, effciently

identifying threats, automating incident response, and enhancing security protocols. Our intuitive interface enables real-time threat detection, rapid analysis, and proactive measures, optimizing overall cybersecurity operations.

## THREAT DETECTION AND RESPONSE

Utilising our EDR and integration with various systems and log sources, COGNNA enables interoperability with diverse security tools and systems, facilitating comprehensive data aggregation and analysis. This enhances threat visibility and response efficacy across multiple platforms, ensuring robust cybersecurity measures.

#### **Hunt for ATPs**

COGNNA leverages the power of Yara and Sigma at scale to hunt for threats. By harnessing Yara's robust pattern-matching engine and Sigma's versatile detection rules, the platform enables organisations to mitigate diverse threats across networks.

COGNNA Plans	ADVANCED	PREMIUM	COMPLETE
IDENTIFY Discover your digtal assets, risks and vulnerabilities	•	•	•
DETECT Centralise important log data and signals to uncover stealthy threats and attacks		•	•
RESPOND Automatically hunt for YARA and Sigma, with remediation actions across your environment	•	•	•
GUARDIANS 24/7 MDR Combines technology with human expertise to rapidly identify threats and proactively threat hunt, monitor, and response to any threats			

### (CCOGNNA

### **Proactive Security, Redefined.**

**COGNNA** transcends conventional cybersecurity. Our Agentic AI for SOC platform, Nexus, cuts through the noise, delivering only actionable threat insights. We offer industry-leading capabilities like YARA and Sigma scanning on live

Empower your team to act swiftly. Respond immediately to regulatory threat advisories and proactively hunt down active national threats. **COGNNA** isn't just about staying safe – it's about taking control.
