
🌐 Official Recruitment | Aren GeoSim Holding

A Division of MEGA HOLDING | GOD AI FATHER
Specialized in Geopolitical Simulation, Risk Forecasting, and Strategic Advisory

1. Senior Geopolitical Analyst | Global Risk Strategist

Key Responsibilities: Model international scenarios, analyze regional threats, provide strategy for states and large investors

Tools: GeoQuant, Stratfor Systems, Tableau

Experience: 7+ years in international policy analysis

Soft Skills: Strategic vision, multidimensional thinking

2. Foreign Policy & Regional Security Researcher

Key Responsibilities: Track diplomatic movements, analyze military and regional trends

Tools: Jane's Defence, SIPRI Databases

Experience: Strong research background in regional security

Soft Skills: Documentation precision, classified structuring

3. Global Risk Modeler | Investment Intelligence

Key Responsibilities: Forecast geopolitical impacts on financial markets, build risk models for global investors

Tools: R, Python (Pandas, NumPy), Palantir Foundry

Experience: Experience with macro-risk modeling

Soft Skills: Economic insight, numerical accuracy

4. Crisis Simulation Specialist | Global Instability Architect

Key Responsibilities: Design simulations for wars, coups, collapses, alliances

Tools: AnyLogic, NetLogo, Vensim

Experience: Work with strategic or defense institutions

Soft Skills: Hypothetical reasoning, complexity management

5. China–US–Russia Relations Analyst

Key Responsibilities: Monitor decisions and moves of global powers and their influence

Tools: OSINT platforms, FT Database, Chatham House Feeds

Experience: Deep focus on global power dynamics

Soft Skills: Diplomatic interpretation, indirect analysis

6. Government Advisory Strategist

Key Responsibilities: Provide simulation-driven foresight for governmental institutions

Tools: Decision trees, Stata, ArcGIS

Experience: Advised high-level political or security bodies

Soft Skills: Discretion, macro-data structuring

7. Global Energy & Resource Conflict Analyst

Key Responsibilities: Analyze tensions over oil, gas, water and their strategic outcomes

Tools: EarthStat, Energy Intelligence Tools

Experience: Geopolitical-energy analytics

Soft Skills: Resource-centric risk mapping

8. Government Decision Simulation System Designer

Key Responsibilities: Build platforms simulating real-time policy decisions

Tools: Agent-Based Modeling, GAMA Platform

Experience: Development of public sector simulators

Soft Skills: Systems thinking, advanced coding

9. Middle East Power Shift Analyst

Key Responsibilities: Track ideological influence, power networks, regional momentum

Tools: Media Monitoring, Social Network Mapping

Experience: Political intelligence in Middle East affairs

Soft Skills: Subtext interpretation, regional insight

10. Geopolitical Data Infrastructure Manager

Key Responsibilities: Curate and validate structured global intelligence datasets

Tools: SQL, Elasticsearch, GraphDB

Experience: Building geopolitical data platforms

Soft Skills: Cross-lingual classification

11. Geopolitical Economic Impact Analyst

Key Responsibilities: Link geopolitical developments to FX, inflation, FDI metrics

Tools: Bloomberg Terminal, Eikon, Python

Experience: Macroeconomic + geopolitical intersection

Soft Skills: Correlation detection, synthesis

12. Live Strategic Dashboard Developer

Key Responsibilities: Build real-time intelligence dashboards for decision-makers

Tools: Power BI, Kibana, Grafana

Experience: Report-building for executives or governments

Soft Skills: Clear presentation, UX orientation

13. State-Linked Cyber Threat Analyst

Key Responsibilities: Analyze nation-backed cyberattacks and their geopolitical motives

Tools: Threat Intel Suites, MISP

Experience: Cyber or national security work

Soft Skills: Technical logic + national security mindset

14. OSINT & Geopolitical Data Analyst

Key Responsibilities: Extract and forecast patterns from open-source global data

Tools: Maltego, Babel Street, OSINT Toolkits

Experience: Open-source intelligence expertise

Soft Skills: Rapid synthesis, high-level searchability

15. Senior Simulation Project Coordinator | Multi-Disciplinary Teams

Key Responsibilities: Manage simulation teams across fields for state-level projects

Tools: Asana, Notion, Confluence

Experience: Leading public/strategic simulation projects

Soft Skills: Interdisciplinary leadership, deadline control
