
Official Recruitment | Aren Trade Hub

A Strategic Intelligence Division of MEGA HOLDING | GOD AI FATHER
Transforming Global Trade through Real-Time Market Forecasting, AI-Driven Technical Analysis, and Cross-Border Strategy

Aren Trade Hub is the operational brain behind high-frequency decision-making across commodities, stocks, digital assets, and geopolitical supply chains. We fuse human insight with machine clarity to build a system where intelligence isn't just reactive—it's predictive.

We operate with precision across time zones, currencies, and risk layers.

Key Positions Include:

1. Senior Technical Analyst | Multi-Market

- Interpret charts, volume, and volatility using pattern prediction AI
 - Tools: TradingView Pro, MetaTrader, custom backtesters
 - Experience: 6+ years in technical trading or analysis
-

2. Global Macroeconomics Strategist

- Analyze world events and economic shifts to inform trade strategy
 - Tools: Economic sentiment AI, macro data dashboards
 - Experience: Policy analysis or international finance
-

3. Supply Chain Volatility Forecaster

- Predict commodity shocks, delays, and global shortages
 - Tools: Global logistics trackers, port data, AI flow modeling
 - Experience: Global trade logistics or commodity risk
-

4. Currency Pair Specialist | High-Volatility Markets

- Execute and analyze short-window positions across volatile pairs
 - Tools: Forex AI, hedging simulators, MT5
 - Experience: High-speed forex environments
-

5. Sentiment Analysis Expert (Crypto & Traditional)

- Monitor social data, fear/greed metrics, and market tone
 - Tools: Altcoin Buzz, Reddit scrape tools, news scoring bots
 - Experience: Social signal-based strategy
-

6. Cross-Border Trade Legal Advisor

- Ensure compliance across jurisdictions, sanctions, and digital asset movement
 - Tools: GlobalTrade AI Law Dashboards, Risk Monitor
 - Experience: International commercial law
-

7. Real-Time News Impact Analyst

- Quantify immediate trade implications from headlines
 - Tools: NLP event impact analyzers, Reuters terminal
 - Experience: News trading or event-driven analysis
-

8. Commodities AI Trader

- Automate position-taking based on global energy, agri, and metals data
 - Tools: Algorithmic trading engines, futures platforms
 - Experience: Futures trading + AI automation
-

9. Risk Overlay Systems Engineer

- Build safety systems that prevent overleveraging, panic trades
 - Tools: Circuit breaker engines, trade pacing AI
 - Experience: Quant development or portfolio risk design
-

10. Multi-Layer Trade Dashboard Developer

- Create intelligent UIs for capital flow tracking

- Tools: Power BI, Python Dash, real-time feed integrations
 - Experience: Visual data engineering
-

11. On-Chain Asset Strategy Analyst

- Trade and manage positions in decentralized markets
 - Tools: DEX dashboards, DeFi liquidity maps
 - Experience: Web3 trading + smart contract flow analysis
-

12. Quantitative Researcher | Strategy Lab

- Model and test new trading hypotheses using deep data
 - Tools: Python, R, proprietary algo libraries
 - Experience: Quant finance or hedge fund analytics
-

13. AI Scalping Bot Developer

- Build bots for precise micro-trade executions under latency pressure
 - Tools: low-latency APIs, co-location servers
 - Experience: HFT or algo bot development
-

14. Trade Ethics & Regulatory Integrity Officer

- Monitor for compliance, conflict of interest, and ethical strategy limits
 - Tools: Compliance AI, audit trail engines
 - Experience: Finance regulation + ethical governance
-

15. Strategic Partnering Specialist (Global Brokers)

- Manage institutional relationships and liquidity routing
 - Tools: CRM, liquidity networks, smart brokerage APIs
 - Experience: Broker networks, partner management
-

16. Emerging Market Risk Modeler

- Analyze geopolitical + financial fragility of target countries
- Tools: RiskIndex AI, credit profile mapping

- Experience: Frontier markets or sovereign credit
-

17. Trading Psychology Coach

- Train internal teams to manage emotional and mental consistency
 - Tools: Mental state trackers, journaling platforms
 - Experience: Performance coaching or neurofinance
-

18. Institutional Trading Desk Coordinator

- Oversee synchronized global positions across teams
 - Tools: Trade desk management systems, timing frameworks
 - Experience: Investment firm or prop desk operations
-

19. Tokenized Asset Evaluator

- Assess synthetic assets, stablecoins, and on-chain derivatives
 - Tools: Chain analytics platforms, valuation modeling
 - Experience: Token finance + comparative asset theory
-

20. Intraday Alert Systems Designer

- Develop responsive alerts for price action, anomalies, and geopolitical shifts
 - Tools: Custom notifiers, AI-driven alert systems
 - Experience: Trade automation and signal design
-

21. Ethical AI Oversight Lead – Trading Algorithms

- Ensure transparency, fairness, and intention in all automated systems
 - Tools: Audit trails, explainability engines
 - Experience: AI ethics + algorithm governance
-

💰 Base Salary: €6,700 / month

Final compensation reflects decision-making speed, market scope, and data-driven mastery.
