
🌐 Official Recruitment | Aren Lingo Academy

A Global Language Division of MEGA HOLDING | GOD AI FATHER
Redefining Language Learning with Artificial Intelligence, Accent Coaching, and Deep Cultural Immersion

Aren Lingo Academy is a multilingual, AI-powered platform for mastering global communication. We merge **personalized language mapping**, emotional speech training, accent reshaping, and neuro-linguistic development into a seamless learning journey.

We teach not just words—but identity, rhythm, and cultural nuance.

Key Positions Include:

1. Lead Linguistic Strategist

- Design AI-powered frameworks for multi-language acquisition
 - Tools: NLP Engines, Memrise API, Learning Graphs
 - Experience: Multilingual education systems or edtech
-

2. Accent Transformation Coach

- Help users shift toward natural-sounding accents (British, American, etc.)
 - Tools: Phoneme AI Trainers, Speech Recognition Engines
 - Experience: Accent reduction or voice training
-

3. Neurolinguistic Programming Expert

- Build modules that connect emotional states to language fluency
 - Tools: NLP Therapy, cognitive language simulators
 - Experience: NLP certification and applied linguistics
-

4. AI Language Tutor – English (Native-Level)

- Deliver dynamic, adaptive sessions powered by AI
 - Tools: Interactive teaching dashboards, virtual avatars
 - Experience: TEFL/CELTA + AI classroom familiarity
-

5. AI Language Tutor – Spanish

- Teach Latin American or Iberian Spanish with cultural immersion
 - Tools: Voice AI, regional video curation platforms
 - Experience: Bilingual education or Spanish literature
-

6. AI Language Tutor – French

- Provide spoken and written instruction using hybrid learning
 - Tools: Pronunciation engines, adaptive dictation tools
 - Experience: Francophone education or DELF prep
-

7. AI Language Tutor – Arabic

- Teach Modern Standard Arabic and regional dialects
 - Tools: Arabic NLP engines, cultural immersion content
 - Experience: Arabic instruction for non-native speakers
-

8. AI Language Tutor – Japanese

- Guide users through kana, kanji, and cultural nuance
 - Tools: Japanese language AI trainers, immersive grammar engines
 - Experience: JLPT training or Japanese philology
-

9. AI Language Tutor – Hebrew

- Teach contemporary and biblical Hebrew with deep cultural references
 - Tools: Script recognition, Hebrew grammar analyzers
 - Experience: Israeli education or Jewish studies
-

10. AI Language Tutor – Turkish

- Deliver instruction with real-world conversational logic

- Tools: Grammar gamification, Turkish AI speech systems
 - Experience: Turkish diaspora or modern Turkish literature
-

11. AI Language Tutor – Hindi

- Teach spoken Hindi in both casual and professional registers
 - Tools: Hindi NLP processors, tonal training tools
 - Experience: Bollywood/Hindi content adaptation or pedagogy
-

12. Cultural Integration Specialist

- Curate language content based on lifestyle, region, and context
 - Tools: Media databases, cultural pattern mapping tools
 - Experience: Intercultural training, anthropological linguistics
-

13. Language Data Curator

- Feed AI engines with clean, contextual, multilingual data
 - Tools: Corpus editors, annotation tools, parallel datasets
 - Experience: Linguistic data management
-

14. Speech Analysis Engineer

- Develop feedback systems based on tone, clarity, and emotion
 - Tools: Voice recognition, intonation graphing, emotion detection AI
 - Experience: Speech therapy or audio engineering
-

15. Curriculum Architect for Adaptive Learning

- Build pathways for learners with different cognitive styles
 - Tools: Adaptive LMS, branching logic systems
 - Experience: Curriculum design or educational psychology
-

16. Children's Language Program Developer

- Design AI language training tools for ages 3–12
- Tools: Game-based language apps, AR teaching tools

- Experience: Early childhood linguistics
-

17. Voice Feedback & Pronunciation Coach

- Offer real-time corrections in rhythm, stress, and clarity
 - Tools: Real-time waveform feedback, accent mapping
 - Experience: Phonetics or public speaking
-

18. Sign Language AI Integrator

- Develop modules for ASL, ISL, or regional sign systems
 - Tools: Gesture recognition engines, sign-language video corpora
 - Experience: Deaf education or inclusive communication tech
-

19. Language Performance Coach (Public Speaking)

- Train users in clarity, delivery, and audience engagement in foreign tongues
 - Tools: Stage AI feedback, VR audience simulation
 - Experience: Cross-lingual performance coaching
-

20. AI Dialogue Simulation Scriptwriter

- Create believable conversation flows for chatbot and roleplay engines
 - Tools: Natural dialogue generators, roleplay platforms
 - Experience: Screenwriting or dialogue design
-

21. Global Certification Advisor

- Align courses with TOEFL, IELTS, JLPT, DELE, etc.
 - Tools: Exam AI prep systems, certification frameworks
 - Experience: Language testing standardization
-

💰 Base Salary: €5,800 / month

Final compensation depends on cultural depth, educational innovation, and fluency across disciplines.
