
Official Recruitment | Aren Publish Center

A Literary & Multimedia Division of MEGA HOLDING | GOD AI FATHER
Building the Future of Publishing with Artificial Intelligence, Narrative Engineering, and Cross-Cultural Storycraft

Aren Publish Center is not just a publishing house—it's a high-intelligence storytelling lab.

We create books, scripts, podcasts, and animated narratives in multiple languages using emotional AI, genre simulation, and deep literary algorithms.

We turn ideas into legacies.

Key Positions Include:

1. Narrative Systems Designer

- Engineer interactive story frameworks with multiple endings
 - Tools: Twine, Ink, AI branching engines
 - Experience: Game writing, narrative AI, or screenplay design
-

2. Head Literary Curator

- Select, refine, and position literary projects across formats
 - Tools: Manuscript scoring systems, content dashboards
 - Experience: Publishing acquisitions or literary editing
-

3. Cross-Cultural Story Translator

- Translate while preserving rhythm, emotion, cultural nuance
 - Tools: DeepL Pro, creative translation assistants
 - Experience: Literary translation or localization
-

4. Book-to-Screen Adaptation Specialist

- Transform novels or concepts into cinematic screenplays
 - Tools: Final Draft, Storyboard Pro, ScriptSync
 - Experience: Screenwriting and adaptation
-

5. AI-Assisted Fiction Writer

- Co-write novels with genre-specific AI modules
 - Tools: Sudowrite, Chat-based narrative engines
 - Experience: Published author or ghostwriting professional
-

6. Character & Worldbuilding Architect

- Build detailed universes and recurring character networks
 - Tools: World Anvil, Notion World Docs, Lore Engines
 - Experience: Fantasy/sci-fi writing, RPG storytelling
-

7. Editor-in-Chief | AI & Human Hybrid Publishing

- Lead content team across languages and formats
 - Tools: Multilingual editing platforms, style alignment tools
 - Experience: 10+ years in editorial leadership
-

8. Animated Story Director

- Design animations based on literary content
 - Tools: Toon Boom, Adobe Animate, Runway ML
 - Experience: Narrative-based animation or cartoon direction
-

9. Literary Data Analyst

- Identify global genre trends, saturation points, and gaps
 - Tools: Genre databases, market comp analytics
 - Experience: Publishing strategy or content forecasting
-

10. Ethics & Narrative Impact Researcher

- Ensure stories uphold integrity across sensitive topics

- Tools: Bias detection AI, diversity filters
 - Experience: Social narrative theory, cultural studies
-

11. Historical Fiction Researcher

- Provide accurate world details for AI-authored historical texts
 - Tools: Archive databases, fact-check platforms
 - Experience: History + creative writing
-

12. Podcast & Audiobook Director

- Design auditory storytelling with voice, sound, and emotional timing
 - Tools: Pro Tools, Descript, Binaural recording tech
 - Experience: Audio storytelling, radio, or narration
-

13. Literary Visual Identity Designer

- Create branding kits for books, series, and digital formats
 - Tools: Canva Pro, InDesign, AI image generation
 - Experience: Book cover or literary brand design
-

14. Short Story Competition Curator

- Run talent discovery contests and global anthologies
 - Tools: Submission platforms, review systems
 - Experience: Contest management or editorial boards
-

15. AI Comic Scriptwriter

- Build concise, emotional panels with AI storyboarding
 - Tools: Pixton, Comic Draw, GPT story slicing
 - Experience: Graphic novel writing or comic scripting
-

16. Literary Rights & Global Distribution Advisor

- Manage contracts, international licensing, and e-rights
- Tools: Publishing legal databases, Royalty AI

- Experience: IP law or global publishing
-

17. Children's Book Development Lead

- Design emotionally adaptive and linguistically rich content for children
 - Tools: Emotion tracking for kids, AR story apps
 - Experience: Child psychology or education + writing
-

18. Memoir & Biography Specialist

- Translate real life into structured, moving narrative
 - Tools: StoryGrid, deep interview tools, memory-mapping platforms
 - Experience: Biography writing or legacy storytelling
-

19. AI-Based Story Testing & Feedback Analyst

- Evaluate readability, rhythm, and genre match of AI outputs
 - Tools: A/B narrative testers, reader emotion metrics
 - Experience: Creative testing or UX for narratives
-

20. Cross-Media Story Sync Strategist

- Ensure narrative consistency across book, video, podcast, and game
 - Tools: Content tracking systems, story IP mapping
 - Experience: Franchise storytelling, transmedia production
-

21. Literary AI Ethics Officer

- Define the philosophical and legal boundaries of machine-written literature
 - Tools: Ethical review engines, policy writing suites
 - Experience: Ethics, AI policy, or narrative law
-

💰 Base Salary: €5,950 / month

Final compensation depends on literary mastery, storytelling innovation, and cultural fluency.
