
👑 Official Recruitment | Aren Fashion Holding

A High-Couture Division of MEGA HOLDING | GOD AI FATHER
Defining the Future of Fashion through AI-Driven Design, Paperwear Innovation, and Global Trend Architecture

We are shaping a new era of fashion—where artificial intelligence meets material science, body analytics, and digital tailoring.
Aren Fashion Holding designs, develops, and delivers **AI-personalized garments**, including real-world fabric couture and **eco-smart disposable fashion (Paperwear)**, enhanced by mirror simulations, catwalk coaching, and 3D styling.

Key Positions Include:

1. AI Fashion Designer

- Create generative clothing lines based on body shape, skin tone, and personality
 - Tools: CLO 3D, Midjourney, Tailornova
 - Experience: Digital fashion collections and prompt-based design
-

2. Smart Material Researcher | Fabric & Paperwear

- Develop AI-compatible textiles and engineered disposable garments
 - Tools: Material AI, biopolymer databases
 - Experience: Smart fabric or sustainable fashion R&D
-

3. 3D Virtual Garment Developer

- Build realistic, wearable 3D models for online fitting and display
 - Tools: Marvelous Designer, Blender, AI Render Suites
 - Experience: Fashion visualization and animation
-

4. Personal Style Psychologist

- Map users' identity, lifestyle, and confidence levels into visual expression

- Tools: Style personality quizzes, behavior-color matrix
 - Experience: Styling psychology, behavioral branding
-

5. Pattern Innovation Engineer

- Design ultra-efficient, AI-optimized garment patterns for multiple body types
 - Tools: Gerber AccuMark, AI Fit Systems
 - Experience: Advanced tailoring, inclusive sizing
-

6. Paperwear Collection Architect

- Build one-time-use fashion lines (event/camp/travel), eco-certified
 - Tools: Sketch Pro, Biodegradable Cut Simulators
 - Experience: Disposable fashion or emergency wearables
-

7. AI-Driven Catwalk Coach

- Train models and users with motion-corrected walk cycles and posture feedback
 - Tools: Pose AI, WalkAnalyzr, Mirror Tracking
 - Experience: Catwalk coaching or movement correction
-

8. Textile Surface and Print Designer (AI Stylization)

- Create programmable textures, reactive prints, and visual shifts
 - Tools: Substance 3D, Adobe Textile Designer
 - Experience: Print manipulation and surface innovation
-

9. Body & Color Analytics Expert

- Evaluate body ratio, skin tone, and contrast balance for optimal outfit match
 - Tools: AI Skin Analyzers, Colorimetry Engines
 - Experience: Dermatology, fashion styling, or makeup design
-

10. Garment Prototyping Technician

- Construct first-run samples from AI outputs in both fabric and paper
- Tools: 3D Printer for textiles, smart laser cutters

- Experience: Prototype refinement and AI-to-physical workflows
-

11. Responsive Garment Engineer (Sensor-Embedded Wearables)

- Integrate sensors for temperature, sweat, posture, and gesture response
 - Tools: Arduino Textiles, E-Textile SDKs
 - Experience: FashionTech or wearable computing
-

12. Cultural Fashion Researcher

- Gather global trend data and align them with cultural, religious, and social norms
 - Tools: Global Fashion Indexes, Ethno-Trend AI
 - Experience: Fashion anthropology or cross-border design
-

13. Smart Fashion UX Interface Designer

- Build the interface for user garment interaction, customization, and feedback
 - Tools: Figma, Notion, AI-UX platforms
 - Experience: Fashion app design or wearable UI
-

14. Fashion Marketing Strategist | AI Trend Mapping

- Create marketing campaigns aligned with predictive fashion cycles
 - Tools: Google Trend AI, Social Graph Analytics
 - Experience: Viral fashion marketing or product storytelling
-

15. Intelligent Mirror Systems Developer

- Develop fitting-room AI mirrors that simulate clothing, lighting, and pose
 - Tools: AR SDKs, LiDAR, Mirror UX Engines
 - Experience: AR/VR or smart retail systems
-

16. Fabric Cutting Automation Specialist

- Implement laser-guided AI cutters for waste-free pattern execution
- Tools: AutoCutter AI, Zund, Gerber

- Experience: Fashion manufacturing automation
-

17. Global Fashion Supply Chain Analyst

- Optimize production and delivery pipelines across continents
 - Tools: SCM AI, Fabric Sourcing Databases
 - Experience: Logistics and ethical sourcing
-

18. Motion Capture Stylist & Pose Director

- Capture real poses for outfit flow simulation and promotional shoots
 - Tools: MoCap rigs, AI pose trainers
 - Experience: Fashion photography and physical styling
-

19. AI-Generated Lookbook Editor

- Curate visuals, textures, and concepts into digital lookbooks
 - Tools: Canva Pro, Adobe XD, Notion
 - Experience: Editorial design and branding
-

20. Fashion eCommerce Integrator

- Connect design pipeline to AI-powered shops, drop systems, and consumer dashboards
 - Tools: Shopify AI, Virtual Try-on APIs
 - Experience: Fashion commerce and digital storefronts
-

21. Sustainability & Lifecycle Strategy Lead

- Guide full fashion lifecycle—design to post-use with minimal footprint
 - Tools: Lifecycle Tracker, Net-Zero Fashion SDKs
 - Experience: ESG fashion or circular economy
-

💰 Base Salary: €6,950 / month

Final compensation reflects vision, innovation, and contribution to the future of sustainable, intelligent fashion.
